The Challenges of Nextgen ADAS and ADS and Related Vehicle Safety Topics

Seth Chalmers, 2025-03-31 Advanced driver assistance systems ADAS and automated driving systems ADS continue to expand into the market at a rapid pace. As improved i.e. next generation versions of these systems become available they will continue to face many challenges in their implementation and benefits for safety and driving operations. The solution will involve many parties including road safety professionals and researchers who see the potential in these systems but may have difficulties keeping up with them and safety advocates who are calling for these systems to achieve higher levels of safety. The Challenges of Next gen ADAS and ADS and Related Vehicle Safety Topics explores these challenges that will fall on the National Highway Traffic Safety Administration NHTSA and automakers as they balance costs and benefits, establish reasonable regulations and standards and determine how to improve, test, deliver and use these systems successfully. Perhaps the most formidable challenge will be overcoming the expectation that ADAS and especially ADS will always work perfectly in every scenario.
