Pluim, Max A. Viergever, 2010-09-21 The 13th International Conference on Medical Image Computing and Computer Assisted Intervention MICCAI 2010 was held in Beijing China from 20-24 September 2010 The venue was the China National Convention Center CNCC China's largest and newest conference center with excellent facilities and a prime location in the heart of the Olympic Green adjacent to characteristic constructions like the Bird's Nest National Stadium and the Water Cube National Aquatics Center MICCAI is the foremost international scientific event in the field of medical image computing and computer assisted interventions The annual conference has a high scientific standard by virtue of the threshold for acceptance and accordingly MICCAI has built up a track record of attracting leading scientists engineers and clinicians from a wider range of technical and biomedical disciplines This year we received 786 submissions well in line with the previous two conferences in New York and London Three program

chairs and a program committee of 31 scientists all with a recognized standing in the field of the conference were responsible for the selection of the papers. The review process was set up such that each paper was considered by the three program chairs, two program committee members and a minimum of three external reviewers. The review process was double blind so the reviewers did not know the identity of the authors of the submission. After a careful evaluation procedure in which all controversial and gray area papers were discussed individually, we arrived at a total of 251 accepted papers for MICCAI 2010, of which 45 were selected for podium presentation and 206 for poster presentation. The acceptance percentage 32% was in keeping with that of previous MICCAI conferences. All 251 papers are included in the three MICCAI 2010 LNCS volumes.

 Anton Grobani, 1975      *Labor Relations in Professional Sports* Robert C. Berry, William B. Gould, Paul D. Staudohar, 1986-02-28  
 For all the billions of dollars the sports industry generates its labor laws and negotiations are still relatively new and their impact is only beginning to be felt. *Labor Relations in Professional Sports* offers a step by step examination of how these new management player relationships have come about and what they may portend for the future. In an engaging style that is rich in sports history and anecdotes the authors examine the background of the major team sports: baseball, football, basketball and hockey and analyze how business and legal considerations have affected each sport's development. They also probe current unresolved issues and predictable future problems such as the relationships of broadcast networks and sports leagues. Surprisingly this book with so formidable a title is not only readable but even difficult to put down. Explanations of complex legal decisions are reduced to brief, lucid passages. Extensive footnotes are provided in each chapter for readers who wish greater detail. Choice: a comprehensive treatment of labor relations in sports. Overall the book is a slam dunk success. *Journal of Law and Commerce*      When Football was Football Joe Ziemba, 1999  
 A unique entertaining look at the early days of football and one of its proudest franchises. *When Football was Football* captures an era in sports history and brings to life its personalities, rivalries, triumphs and tragedies.      A Manual of the Examination of Masters and Mates as Instituted by the Department of Marine and Fisheries of Canada William C.
