But how do you determine which are the most important dangers for your business? What can you do to lessen the chances of their happening and minimize the impact if they do happen? In this comprehensive volume Kit Sadgrove shows how you can identify and control the relevant threats and ensure that your company will survive. He begins by asking: What is risk? How do we assess it and how can it be managed? He goes on to examine in detail the key danger areas including finance, product quality, health and safety, security and the environment.
