Foreword

This Operator's Manual is intended as a guide for the correct use and maintenance of the machine. Therefore, study it carefully before starting and operating the machine, or before carrying out any preventive maintenance.

Keep the manual in the intended place in the cub so that it is always at hand. Replace it immediately, if it is lost.

The manual describes the applications for which the machine primarily is intended and is written to apply to all markets.

We therefore ask you to disregard the sections which are not applicable to your machine or to the work for which you use your machine.

Many hours are spent on design and production to make a machine that is as efficient and safe as possible. The accidents which occur in spite of this, are mostly caused by the human factor. A safety-conscious person and a well-maintained machine make a safe, efficient and profitable combination. Therefore, read the safety instructions and follow them.

We continually strive to improve our products and to make them more efficient through changes to their design. We retain the right to make these improvements on products which have already been delivered.

We also retain the right to change data and equipment, as well as instructions for service and maintenance without prior notice.

Safety regulations

It is the operator's obligation to know and follow the applicable national and local safety regulations. The safety instructions in this manual only apply to cases when there are no national or local regulations.

This manual has been adapted to various markets. Details of specific products which do not apply to your market will be omitted.

THE PAPERS

The symbol above appears at various points in the manual together with a warning text. It means:
Warning, be alert! Your safety is involved! It is the obligation of the operator to make sure that all
warning decals are in place on the machine and that they are readable. Accidents may otherwise occur.

Get to know the capacity and limits of your machine.

Handling and maintenance of the machine

Using Construction Equipment in incompatible environments

- the machine has been used in a correct way and been maintained in accordance with the instructions contained in the Operator's Manual and Service Manuals.
- prescribed service and prescribed inspections have been carried out at the stated points in time.
- the recommended lubricants according to the manual have been used.
- fitted security seals are unbroken or that adjustments and refitting of security seals has been carried out by an authorized dealer workshop.
