**Gender Violence, Social Media, and Online Environments** Lisa M. Cuklanz,2022-12-30 This book examines contexts practices and activism on issues of gender violence at the intersections of online and public spaces Through individual case studies the volume considers the interplay between the virtual worlds of online spaces including social media physical spaces and bodies and the ways in which offline and online dimensions of experience can serve as motivators for extensions of or limitations to each other Examining both problems and potential solutions chapters explore the impacts of and potential resistance to the intersections of gender violence social media and our complex lived environments across national boundaries Throughout the volume close attention is paid to the difficult issues highlighted when prior conceptions of basic foundations such as public space individual rights and professional responsibility are confronted by new examples that further trouble the boundaries of long held frameworks of legal social professional understanding and even our

comprehension of the real Each chapter grapples with a difficult reality related to gender violence underscores possible ways forward and highlights limitations resisting easy answers to complex and persistent questions about rights personal integrity and social responsibility Offering clear insights into a critical issue this book will be of interest to scholars and students in the areas of media studies social media gender and women s studies sociology and criminology digital humanities and politics

*Uber Vs. Taxi* Joshua David Angrist,Sydnee Caldwell,Jonathan V. Hall,2017 Ride hailing drivers pay a proportion of their fares to the ride hailing platform operator a commission based compensation model used by many internet mediated service providers To Uber drivers this commission is known as the Uber fee By contrast traditional taxi drivers in most US cities make a fixed payment independent of their earnings usually a weekly or daily medallion lease but keep every fare dollar net of expenses We assess these compensation models from a driver s point of view using an experiment that offered random samples of Boston Uber drivers opportunities to lease a virtual taxi medallion that eliminates the Uber fee Some drivers were offered a negative fee Drivers labor supply response to our offers reveals a large intertemporal substitution elasticity on the order of 1 2 At the same time our virtual lease program was under subscribed many drivers who would have benefitted from buying an inexpensive lease chose to opt out We use these results to compute the average compensation required to make drivers indifferent between ride hailing and a traditional taxi compensation contract The results suggest that ride hailing drivers gain considerably from the opportunity to drive without leasing
