Chakra

Healing Test J.D. Rockefeller, 2015-12-26 The Sanskrit word chakra means wheel or circle. These are the energy centers in your subtle or non physical body. The chakras are responsible for making sure that energy flows smoothly through your subtle body and a good flow of energy strengthens your aura. A weak aura is a sign of blockages in one or more chakras and this means that energy or Prana or Chi is not flowing smoothly in your subtle body. This causes physical ailments, mental disturbances, emotional upheavals and spiritual disconnectedness. There are seven major chakras in the body. These are The root chakra, The sacral chakra, The solar plexus chakra, The heart chakra, The throat chakra, The brow chakra, The crown chakra. These 7 main chakras control different aspects of your physical, mental, emotional and spiritual nature. If you want health and well being for yourself, it is important that these chakras remain open and balanced. When these are closed or imbalanced or blocked, they have a negative impact on various aspects of your physical, emotional and mental health. Chakras can be under active as well as over active and in both cases they require healing and balancing. If any of your chakras is blocked or out of balance, you should work at balancing or healing them as soon as possible. The longer you ignore these imbalanced chakras, the more damage they will cause. But the important question is how do you identify which of your chakras is imbalanced and needs healing? There is help at hand right here. Just take the following test, consult the scoring key, interpret your scores and find out which of your chakras need healing.

Chakras for Beginners

Susan Mori, 2020-03-31 Awaken and Unleash Yourself Through the Power of Your Chakras Our universe is a ball of energy every entity and emitting energy from the vast ocean to the tiniest microorganism to every cell in the human body Our cells radiate energy in various ways and different classes of cells emit different kinds of energy The intensity of energy depends on the location of the cell and its functionality within the body It does not come as a surprise that energy channels are positioned in key points in the body based on the specific nature of the energy These key points called chakras are responsible for the energy flow in and out at a steady pace The word chakra originates from the Sanskrit word which means wheel A chakra can be viewed as a wheel spinning vortex that spins in a circular motion thereby creating a vacuum in the center The vacuum attracts energy that has the same frequency as the motion of the chakra There are hundreds of chakras in the body that have a significant effect on every being in the universe Chakras are positioned across various parts of our body and account for the specific illnesses and imbalances in that area of the body These issues can be corrected when the decayed energy is released from the body The energy centers can remove any tension or rigidity in specific areas of the body They also play a significant role in maintaining your physical emotional and mental wellbeing When the unwanted energy is released it not only helps to clear the physical state of the body but also helps to balance the emotional state of mind The energy flows through all the chakras This helps to establish a degree of balance in your body An imbalance of energy in any chakra will

lead to ailments If you find yourself falling ill frequently or feeling a particular emotion often you should use techniques which will help you strike a balance of energy in your body Chakra healing helps to regulate the natural flow of energy throughout the body This process is also called chakra balancing since you will restore the balance of energy across all the chakras in your body A well balanced chakra can give you a relaxed vital and centered feeling It improves the wellness and embodiment of self Over the course of this book you will gather information on chakras The chapters will concentrate on what chakras are the different types of chakras the healing process using chakras and the importance of well balanced chakras
