Bojar, 2021-11-24 *Feminist Organizing Across the Generations* spans almost 60 years of feminist history and traces the evolution of feminist activism from the 1960s until the present. Using the Philadelphia chapter of the National Women's Organization as a starting point, Karen Bojar explores how feminist organizing was unfolding in similar ways across the country. The book examines the enormous energy put into building feminist service organizations such as women's shelters and rape crisis centers, which were to have a profound impact on major social institutions, health care delivery, and the justice system. The book also looks at the differences between the organizing strategies of second wave feminists and those of the 21st century. Much 21st century feminist organizing is taking place outside of explicitly feminist groups, with young feminists bringing a gender justice perspective to a range of racial, economic, and climate justice organizations. This book is suitable for students and scholars in women's and gender history, political history, and gender studies.
