## Abstract

Academic staff hold multiple identities by relating to the organization and to their profession. Merging higher education institutions involves organizational changes which may impact identities of academic staff. This paper studies potential impacts on staff perceptions of their organizational and academic identities through a 2-year in-depth study of a merger between a large university and three university colleges in Norway. We find that academics have multiple nested identities and engage in identification at different levels. While they may identify with the new organization, they may simultaneously experience tensions and pressures on their academic identity, or they may have strong academic identity and low identification with the new organization. Moreover, space to develop local accommodations in the new organization and access to symbolic resources plays significant roles in the identification processes.

**Nested Identities** Guntram Henrik Herb, David H. Kaplan, 1999 This groundbreaking work explores the vital importance of territory and space to any genuine understanding of nationalism and identity Too often the contributors argue national identity is analyzed apart from the lands that are integral to its formation as territory is seen as a commodity to be brokered rather than as central to a group's self definition This volume combines theoretical insights with structured case studies on how national identity manifests itself in space and at different geographical scales

**Social Identity Processes in Organizational Contexts** Michael A. Hogg, Deborah J. Terry, 2014-06-03 This new volume is the first to bring together social and organizational psychologists to explore social identity theory in organizational contexts The chapters are wide ranging they deal with basic social identity theory organizational diversity leadership employee turnover mergers and acquisitions organizational identification cooperation and trust in organizations commitment and work and socialization and influence within organizations This book is an integrative platform for a closer relationship between social psychologists and organizational psychologists who study social identity processes in organizations

**Organizational Relationships in the Networking Age** Willem Koot, Peter Leisink, Paul Verweel, 2003-01-01 Globalization the information technology revolution individualization and other processes in contemporary society all impact on organizations This text analyzes the framework of these organizational relationships and the dynamics of identity formation and bonding on several levels

Exploring Cultural Identities in Jean Rhys' Fiction Cristina-Georgiana Voicu, 2014-07-24 Using a theoretical approach and a critical summary combining the perspectives in the postcolonial theory psychoanalysis and narratology with the tools of hermeneutics and deconstruction this book argues that Jean Rhys's work can be subsumed under a poetics of cultural identity and hybridity It also demonstrates the validity of the concept of hybridization as the expression of identity formation the cultural boundaries variability the opposition self otherness authenticity fiction trans textuality and the relevance of an integrated approach to multiple cultural identities as an encountering and negotiation space between writer reader and work The complexity of ontological and epistemological representation involves an interdisciplinary approach that blends a literary interpretive approach to social anthropological cultural and historical perspectives The book concludes that in the author's fictional universe cultural identity is represented as a general human experience that transcends the specific conditionalities of geographical contexts history and culture The construction of identity by Jean Rhys is represented by the dichotomy of marginal identity and the identification with a human ideal designed either by the hegemonic discourse or metropolitan culture or by the dominant ideology The identification with a pattern of cultural authenticity of racial ethnic or national purism is presented as a purely destructive cultural projection leading to the creation of a static universe in opposition to the diversity of human feelings and aspirations Jean Rhys's fictional discourse lies between the anxiety of authorship and the anxiety of influence and shows the postcolonial era of uprooting and migration in which the national ownership diluted the

*Reconfiguring Spanish Subjects* Monika A. Szumilak,2005 Negotiating Nationalism W. J. Norman,2006-05-25 There are at least three times as many nations as states in the world today This book addresses some of the special challenges that arise when two or more national communities re the same multinational state As a work in normative political philosophy its principal aim is to evaluate the political and institutional choices of citizens and governments in states with rival nationalist discourses and nation building projects The first chapter takes stock of a decade of intense philosophical and sociological debates about the nature of nations and nationalism Norman identifies points of consensus in these debates as well as issues that do not have to be definitively resolved in order to proceed with normative theorizing He recommends thinking of nationalism as a form of discourse a way of arguing and mobilizing support and not primarily as a belief in a principle A liberal nationalist then is someone who uses nationalist arguments or appeals to nationalist sentiments in order to rally support for liberal policies The rest of the book is taken up with the three big political and institutional choices in multinational states First what can political actors and governments legitimately do to shape citizens national identity or identities This is the core question in the ethics of nation building or what Norman calls national engineering Second how can minority and majority national communities each be given an adequate degree of self determination including equal rights to carry out nation building projects within a democratic federal state Finally even in a world where most national minorities cannot have their own state how should the constitutions of multinational federations regulate secessionist politics within the rule of law and the ideals of democracy More than a decade after Yael Tamir s ground breaking *Liberal Nationalism* Norman finds that these three great practical and institutional questions have still rarely been addressed within a comprehensive normative theory of nationalism **American Spiders and Their Spinning Work: Snares and nests** Henry Christopher McCook,1889 Social Sciences Index ,2001 **Macro- and Micro-regionalism in the Historical Geography of the Pacific Rim** Dianne Elizabeth Meredith,2003 *Journal of Borderlands Studies* ,2009 Edmund Burke's Irish Identities Seán Patrick Donlan,2007 Edmund Burke was an orator writer British statesman and opponent of the revolution in France This collection of essays focuses on Burke s complex relationship to his native Ireland It brings together 13 authors all established experts and young scholars from a variety of viewpoints and disciplines **Multicultural Nationalism** Asifa M. Hussain,William L. Miller,2006-07-20 When the focus is on black or Asian minorities Britain is frequently described as a multi

cultural state But when the focus is on Scotland England and Wales Britain is also described as a multi national state Yet debates about multiculturalism and nationalism have been held in parallel without sharing even a common vocabulary This book is a pioneering study of how multiculturalism interacts with multinationalism especially within post devolution Scotland It gives equal attention to Scotland s largest visible and invisible minorities ethnic Pakistanis almost all of them Muslim and English immigrants Rising Scottish self consciousness could have posed a challenge both these minorities But in practice potential problems have proved themselves to be solutions integrating rather than alienating In the eyes of the minorities devolution has made Scots at once more proud and less xenophobic Even English immigrants feel devolution has defused tensions calmed frustrations and forced Scots to blame themselves rather than others for their problems Pakistanis have suffered increasing harassment but they attribute that to 9 11 not to devolution And Muslims adopt Scottish identities Scottish attitudes even Scottish nationalism consciously or unconsciously using these as tools of integration The book is based in part on large scale surveys of Pakistani and English minorities within Scotland and of the majority populations in Scotland and England But it is also based on systematic analysis of transcripts of focus group discussions with minorities revealing the variety of opinion within minorities as well as the contrasts between them In particular it presents a unique account of how Scottish Muslims express their feelings in a time of crisis
