Handbook of Orchestration Florence G. Fidler,1921 **Orchestration** Paul Mathews,2006 Orchestration An Anthology of Writings is designed to be a primary or ancillary text for college level music majors Although there are several how to

textbooks aimed at this market there is little available that traces the history of orchestration through the writings of composers themselves. By collecting writings from the nineteenth century to today Mathews illuminates how orchestration has grown and developed as well as presenting a wide variety of theories that have been embraced by the leading practitioners in the field. The collection then traces the history of orchestration beginning with Beethoven's Orchestra with writings by Berlioz, Wagner, Gounod, Mahler and others. The 19th century Mahler, Gevaert, Strauss, the fin de siècle on the edge of musical modernism, writings by Berlioz, Jadassohn, Delius and Rimsky-Korsakov, early modern Busoni, Schoenberg, Stravinsky, Grainger and others, and high modern Carter, Feldman, Reich, Brant. Many of these pieces have never been translated into English before, some only appeared in small journals or the popular press and have never appeared in a book and none have ever been collected in one place. The study of orchestration is a key part of all students of music theory and composition. Orchestration provides a much needed resource for these students filling a gap in the literature.

The Technique of Orchestration Kent Kennan, Donald Grantham, 1990. The emphasis is on the practical fundamentals of orchestration. The Sixth Edition has been expanded and revised to reflect new developments in instruments and orchestral practice and a new listening compact disc has been added that contains selected examples of orchestration. A listening compact disc features selected samples intended for use in conjunction with the book. New musical examples and listings and an updated bibliography which includes many recent publications. A short chapter on scoring for high school orchestras and information on nonorchestral instrumental groups including the band and the wind ensemble.

The Orchestra and How to Write for It: A Practical Guide (1896) Frederick Corder, 2009-05. This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important we have made it available as part of our commitment for protecting, preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work.
