Impact of Global University Ranking Systems on Developing Countries Onyancha, Omwoyo Bosire, Tella, Adeyinka, 2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world. It has been observed that the top ranked universities attract major financial commitments from the industry, the best students, quality researchers, and a wide range of other quality endowments such as equipment, libraries, and laboratories. It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world, including the developing countries. Impact of Global University Ranking Systems on Developing Countries presents a collection of perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries. The book is an additional resource for discussion and discourse as far as the global university ranking systems are concerned and opens new frontiers for further research.
