World University Rankings and the Future of Higher Education Downing, Kevin, Ganotice, Jr., Fraide A., 2016-10-06
Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today To attain their goals universities must adopt new strategies to achieve academic excellence World University Rankings and the Future of Higher Education is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality Exploring the benefits and challenges of this system in a global context this book is ideally designed for academicians researchers students administrators and policy makers interested in the effects of university rankings in the education sector and beyond *The Changing Governance of the Sciences* Richard Whitley, Jochen Gläser, 2008-03-20 This book arose from a conversation between Lars Engwall and Richard Whitley during the 2003 European Group for Organization Studies Colloquium in Copenhagen about important topics for future research We agreed then and this has been amply confirmed by subsequent events that the proliferation of research evaluation schemes especially in Europe was an important feature of the changing relationships between the state universities and scientific research more generally which needed systematic and comparative analysis With the support of the Bank of Sweden Tercentenary Foundation this discussion led to workshops in Uppsala and Manchester involving colleagues from Australia Germany and the Netherlands at which the main framework for such an analysis was developed This framework then formed the basis for the conference at Bielefeld in 2005 at which earlier versions of most of the papers in this volume were presented and extensively discussed We are very grateful for the support of the PRIME network of the European Commission and the Max Planck Institute for the History of Science for this conference as well as the invaluable efforts of Peter Weingart of the University of Bielefeld We are also greatly indebted to the members of the Editorial Board who commented on various drafts of these papers as well as to Aant Elzinga Stefan Kuhlmann Philippe Laredo Arie Rip and Nic Vonortas who acted as referees *Big Data on Campus* Karen L. Webber, Henry Y. Zheng, 2020-11-03 How data informed decision making can make colleges and universities more effective institutions The continuing importance of data analytics is not lost on higher education leaders who face a multitude of challenges including increasing operating costs dwindling state support limits to tuition increases and increased competition from the for profit sector To navigate these challenges savvy leaders must leverage data to make sound decisions In *Big Data on Campus* leading data analytics experts and higher ed leaders show the role that analytics can play in the better administration of colleges and universities Aimed at senior administrative leaders practitioners of institutional research technology professionals and graduate students in higher education the book opens with a conceptual discussion of the roles that data analytics can play in higher education administration Subsequent chapters address recent developments in technology the rapid accumulation of data assets organizational maturity in building

analytical capabilities and methodological advancements in developing predictive and prescriptive analytics Each chapter includes a literature review of the research and application of analytics developments in their respective functional areas a discussion of industry trends examples of the application of data analytics in their decision process and other related issues that readers may wish to consider in their own organizational environment to find opportunities for building robust data analytics capabilities Using a series of focused discussions and case studies Big Data on Campus helps readers understand how analytics can support major organizational functions in higher education including admission decisions retention and enrollment management student life and engagement academic and career advising student learning and assessment and academic program planning The final section of the book addresses major issues and human factors involved in using analytics to support decision making the ethical cultural and managerial implications of its use the role of university leaders in promoting analytics in decision making and the need for a strong campus community to embrace the analytics revolution Contributors Rana Glasgal J Michael Gower Tom Gutman Brian P Hinote Braden J Hosch Aditya Johri Christine M Keller Carrie Klein Jaime Lester Carrie Hancock Marcinkevage Gail B Marsh Susan M Menditto Jillian N Morn Valentina Nestor Cathy O Bryan Huzefa Rangwala Timothy Renick Charles Tegen Rachit Thariani Chris Tompkins Lindsay K Wayt Karen L Webber Henry Y Zheng Ying Zhou
