*Google and the Law* Aurelio Lopez-Tarruella, 2012-02-23 Google s has proved to be one of the most successful business models in today s knowledge economy Its services and applications have become part of our day to day life However Google has repeatedly been accused of acting outside the law in the development of services such as Adwords Googlebooks or YouTube One of the main purposes of this book is to assess whether those accusations are well founded But more important than that this book provides a deeper reflection are current legal systems adapted to business models such as that of Google or are they conceived for an industrial economy Do the various lawsuits involving Google show an evolution of the existing legal framework that might favour the flourishing of other knowledge economy businesses Or do they simply reflect that Google has gone too far What lessons can other knowledge based businesses learn from all the disputes in which Google has been or is involved This book is valuable reading for legal practitioners and academics in the field of information technologies and intellectual property law economists interested in knowledge economy business models and sociologists interested in internet and social networks Dr Aurelio Lopez Tarruella is Senior Lecturer in Private International Law at the University of Alicante Spain

**Transaction Cost Management** Chihiro Suematsu, 2014-08-07 All organizations institutions business processes markets and strategies have one aim in common the reduction of transaction costs This aim is pursued relentlessly in practice and has been perceived to bring about drastic changes especially in the recent global market and the cyber economy This book analyzes and describes transactions as a model on the basis of which organizations institutions and business processes can be appropriately shaped It tracks transaction costs to enable a scientific approach instead of a widely used state of the art approach working to bridge the gap between theory and practice This open access book analyzes and describes transactions as a model

**The Profit Paradox** Jan Eeckhout, 2022-10-25 A pioneering account of the surging global tide of market power and how it stifles workers around the world In an era of technological progress and easy communication it might seem reasonable to assume that the world s working people have never had it so good But wages are stagnant and prices are rising so that everything from a bottle of beer to a prosthetic hip costs more Economist Jan Eeckhout shows how this is due to a small number of companies exploiting an unbridled rise in market power the ability to set prices higher than they could in a properly functioning competitive marketplace Drawing on his own groundbreaking research and telling the stories of common workers throughout he demonstrates how market power has suffocated the world of work and how without better mechanisms to ensure competition it could lead to disastrous market corrections and political turmoil The Profit Paradox describes how over the past forty years a handful of companies have reaped most of the rewards of technological advancements acquiring rivals securing huge profits and creating brutally unequal outcomes for workers Instead of passing on the benefits of better technologies to consumers through lower prices these superstar companies leverage new technologies to charge even higher prices The consequences are already immense from unnecessarily high

prices for virtually everything to fewer startups that can compete to rising inequality and stagnating wages for most workers to severely limited social mobility A provocative investigation into how market power hurts average working people The Profit Paradox also offers concrete solutions for fixing the problem and restoring a healthy economy      **Successful Business Model Transformations in Disruptive Times** Thomas Rudolph,Markus Schweizer,2024-06-17 The authors offer solutions for established corporations facing disruptive challenges Based on extensive research and discussion a unique management approach the High 5 approach has been developed to promote successful self disruption in established corporations At the center of this approach is the transformation of the core business The book supports the idea of permanent self disruption as the key to success for established players Successful Business Model Transformations in Disruptive Times is aimed at the management of various industries This book provides managers in established corporations with a theoretically sound and practical guide      **Intellectual Property Rights and Competition Law in India** Rajni Malhotra Dhingra,Nisha Dhanraj Dewani,2024-08-12 This book explores the relationship between intellectual property law and competition law proposing a harmonious equilibrium in the dynamic landscape of evolving technology It explores how intellectual property rights IPR can be effectively balanced with competition law considerations offering insights into navigating the evolving intersection of legal frameworks in the realm of technology and innovation In the rapidly evolving landscape of India s legal framework the intersection of IPR and competition law has become a critical focal point This book dissects the regulatory landscape offering a thorough analysis of India s competition law and its application in conjunction with patent copyright trademark blockchain technologies computer software artificial intelligence and more Covering landmark legal decisions precedents and emerging trends that shape the balance between fostering innovation and preventing anticompetitive practices the book also uses case studies involving WhatsApp Vs CCI and Vidya Drolia case Focusing on India but with lessons for a global audience the book brings together contributions from experts across disciplines to promote innovative solutions to balancing IP and competition law with technological advancements The book will be of interest to researchers in the field of the law of emerging technologies IP law and competition law      *Advances and Trends in Engineering Sciences and Technologies II* Mohamad Ali,Peter Platko,2016-11-30 These are the proceedings of the 2nd International Conference on Engineering Sciences and Technologies ESaT 2016 held from 29th of June until the 1st of July 2016 in the scenic High Tatras Mountains Tatransk Matliare Slovak Republic After the successful implementation and excellent feedback of the first international conference ESaT 2015 ESaT 2016 was organized under the auspices of the Faculty of Civil Engineering Technical University of Ko ice Slovak Republic in collaboration with the University of Miskolc Hungary The conference focused on a wide spectrum of topics and subject areas in civil engineering sciences The proceedings bringing new and original advances and trends in various fields of engineering sciences and technologies that accost a wide range of academics scientists researchers and professionals from universities and practice The authors of the
