lives that we really do not bother much about their natural benefits and value All we know is that they are those greens  
which we had to eat when we were children because mommy said so and she was bigger than us And she was not a good  
cook And also she made every vegetable dish taste so boring so blah and so bland that one promised oneself that one would  
never eat it when one grew up That is the reason why so many of us grow up with an anti vegetable subconscious feeling But  
did you know that these green and leafy vegetables are the reasons why you kept so healthy so energetic and so bouncing  
when you were a kid They were the natural mineral resources which provided you with vitamins minerals and other essential  
nutrients which help your muscles grow healthy your skin glow and made you look so bright eyed and bushy tailed And then  
you grew up and stopped eating vegetables Instead you began eating and other high protein diet without any greens or  
yellows or reds which were harvested from plants vines herbs or shrubs And that made your body deficient in all the  
essential vitamins It also made you less healthy than what you were when you were a kid And you did not get to know it So  
here are some good reasons why you should eat plant produce especially when they are green and leafy Fibrous leafy and  
green vegetables fresh from the farm are of course the pride and joy of every health conscious and proud cook If the  
proportions of these vegetables are increased in your daily diet you are going to lessen your intake of carbohydrates starch  
and grain This is going to benefit you and the general state of your health in the long run It also means that you will never  
suffer from constipation Nothing can take the place of cereals and grains in your daily diet in the same manner vegetables  
have their own invaluable and irreplaceable place in the diet groups which make up your daily meals The benefits of  
vegetables eaten raw or cooked then means that you are going to have a tasty meal with natural digestive products being  
added to your system Your blood circulation is going to get invigorated and your digestive system is going to get rid of any  
small ailments brought about by eating a starchy fatty and high protein high carbohydrate diet Vegetables are amazing toxin  
eliminators So if you are thinking of detoxifying your body with any star endorsed detoxifying products think again Try  
increasing the amounts of vegetables in your diet The best thing about fibrous vegetables is that it adds the amount of bulk  
to the fecal material so that it can be eliminated during the regular bowel movements every day This keeps your system

healthy It also keeps your skin glowing and you energetic That is because there are no toxins accumulating in your body and weakening your system

The Magic of Grapes To Cure and Heal John Davidson, Dweep J. Singh, 2013-05-15

The Magic of Grapes To Cure and Heal Table of Contents Introduction The Global Scope of Grapes Grapes for Health Grapes to cure Possible Incurable Diseases Types of Grapes Difference between Wine Grapes and Table Grapes How Do You Grow Grapes Best Climate for Grapes Best Soil for Grapes Grapes from Seeds or from Young Vines Plenty of Water Making a Trellis for Your Vine Protecting Your Grapes from Birds Harvesting Your Grape Yield Difference between Sultanas Raisins and Grapes How to Get Grape Juice Resveratrol Christmas Fruitcake Traditional Carrot Pudding Using Grapes for Natural Cures Constipation Teething Problems Stress and Strain TB Dry Cough Flatulence and Digestion Related Problems Conclusion

Introduction The moment you hear the word grapes you visualize a bunch of yellow or black purple delicious juicy fruit which you enjoy plucking off their stalks and popping in your appreciated mouth Believe it or not grapes are just about the only fruit which can be eaten in large quantities without any sort of harmful side effects The magic about grapes is that not only is this considered to be an extremely good way which you can cure yourself but it is also such a good and delicious easy to eat fruit that even fussy and finicky eaters who touch fruits and vegetables very rarely cannot resist a fistful of grapes The history of grapes goes back as long as mankind existed In prehistoric times grapes were gathered in the jungles before man decided to cultivate them in his vineyards or gardens The Bible says that Noah grew grapes on his farm But before that the classical age of Greece had already assigned a God Dionysius as the God of grapes and wine and you can see him sporting around with the grape vine leaves around his head as he blesses his worshipers with the gift of the grapes wine The Romans called him Bacchus So when did wine get associated with grapes An old legend talks about a Georgian princess who was suffering from toothache around 8000 years ago No dentist would do anything for her so being a delicate dainty darling she said that she was going to kill herself because she could not bear the pain So she went around looking for something to eat which would put her out of her misery Now one of her could not care less slaves had left some grape juice neglected in an earthenware pot and it had been fermenting over a long time in its corner Naturally it gave out the fermenting aroma of grape wine which no one in that land had smelled before So the Princess grabbed this pot and drank everything and grew tipsy I am sure she woke up with a hangover but according to her her toothache was gone and she had slept and dreamt pleasantly of no pain Well that was how people began to think about the juice of the grape in its fermented form In the same way poetry talking about the wine of Shiraz going back more than 4000 years ago speaks about the importance of wine in the old Oriental legends Wine can be made from almost any vegetable or fruit yes I have heard of people making wine from vegetables too but that is rather an insult to the not so humble grape because this berry is best suited to give you enough of juice to make delicious sparkling wine which can either be champagne or can be ordinary table wine Also wine if not made from farm grown grapes ripen in the sun in their vineyards I consider to be sacrilege and really not worth appreciating or

savoring Mark Twain in his hilarious book *Innocents abroad* talks about enjoying the adventure of he and his friends raiding an Italian vineyard at night when they reach Italy Now that should have been quite an intoxicating experience

Grandma s Natural Remedies and Ancient Herbal Beauty Recipes Table of Contents Introduction Monday s Child Is Fair of Face The Healing Power of Infused Oil Remedies for winter Chilblains Sciatica Stiff Joints Quit your Bellyachin Simple Perfumed Ointments Natural Cures For Summer Ailments Appendix Introduction A couple of years ago somebody asked me what made me so interested in herbal remedies and natural cures as well as natural beauty recipes That is when I told him that the wisdom of the ancients had not been garnered together and would be lost as the generations forgot about asking their old wise ancestors the Lore which they knew So I was seven years old when I decided to myself that I needed to know everything about what my grandmother had learned from her grandmother And I started writing those ancient natural remedies and beauty recipes down More than three decades later I started writing books on

natural remedies and natural herbal recipes which I collected whenever I went around the countryside People used to go around looking at the places to visit I used to go around asking for the oldies of the village who would give me herbal remedies and recipes In around 30 years I collected thousands of these recipes which were and are still being used by villagers and townsfolk and which have been given to them down the ages And they work because all the ingredients are natural And also the genetic makeup of hard working people living in an unpolluted atmosphere helped in keeping them healthy So they did not have to go running to a doctor whenever they caught a sniffle They knew the easiest herbal tisane in which would put them straight in a couple of days Now I spent my childhood and youth in jungles as well as in remote areas in all corners of the compass where nobody believed in medicines and sometimes medical access for serious cases was able only through air lifting by a helicopter but everybody believed in the power of nature and her curative properties Also plenty of exercise a good and healthy diet and grandma s natural remedies kept us healthy and happy And the funny thing is that the only times we got sick with measles mumps and chickenpox was when we came down from the mountains to the cities and the towns during our annual vacations The moment we got back into the healthy atmosphere of the mountains with plenty of fresh air plenty of fruit and drink and plenty of opportunities to create lots of childish mischief and mayhem we were content and happy children again We never knew that there were medicines which you needed to pop to keep healthy Is not this the natural trend of the 21st century civilized person You have lost your faith in natural remedies to keep you healthy You would rather buy something expensive which is being endorsed by your favorite star I am certain she never uses that medicine herself because it is made up of chemicals These chemicals are going to have a harmful after effect on your body The first thing you do when you wake up is take some vitamins with your breakfast After that you take some vitamins or pills to pep you up Then you take the medicines prescribed to you by a doctor Count the times you take some sort of medicine in the shape of a pill vitamin and drug throughout the day And then can you believe someone who has not been to see a doctor for the last 30 years There are plenty of octogenarians in our area who believe in natural remedies and good diets to keep them healthy They are all grandpas and grandmas They do not coddle themselves with pills and medicines

Introduction  
Somebody asked me once why I did not become a doctor and then join the Defense Services as a Doctor like the majority of my family members. Here was I with an easily obtained Degree in Natural Sciences and all my knowledge garnered during a peripatetic childhood and youth about natural remedies, ancient medicine and natural healing processes. The medical or the engineering fields were the only options left for good students during the time I was at University. And I give them my stock answer which I consider logical and sensible. If I become a doctor I will be giving my patients chemical based medicine and I will just be curing their bodies. On the other hand if I stick to my habit of learning more about natural remedies and ancient remedies I will be curing their bodies as well as fighting the disease from the root onwards. My grandmother had learned about natural remedies and beauty recipes from her grandmother and this wisdom was passed down the ages from mother to daughter. For millenniums every mother in every ancient civilization taught her daughters the rudimentary art of survival and staying beautiful and youthful with fruits, vegetables, spices and herbs. This is now considered to be alternative medicine by doctors in the West. But this was the medicine with which people survived through centuries and stayed healthy. So if you believe in natural remedies and naturopathic treatments the cures are right around you. But many of us would rather go to a doctor and get some expensive medicine. The side effect of that medicine is going to be that some other part of our system is going to get affected. After that we go back to the doctor again and get some medicine to treat that side effect. That medicine produces another side effect. This is going to be your way of living for the rest of your life. However if you eat natural medicines you are never going to suffer from any sort of side effects. That is because natural products are more tuned to your body's systems and natural needs than chemical drugs are. Say no to chemical drugs as far as possible. For all those who have read Lloyd C Douglas' *Magnificent Obsession* and liked it, Mr Douglas had some more words spoken by another of his popular characters in *Disputed Passage*. That doctor said something on the lines of it is not our duty to just cure the body. We have to cure the mind and spirit too and heal them much to the disgust of doctor Tubby Forrester who considered every human to be a machine which needed to be put right and where did emotions and spirit and

soul come into this curing process At the end of the story Dr Forrester had to accept the fact that human beings had to be treated by doctors who understood their psychological mental spiritual and emotional makeup Unfortunately this is not being done today because doctors are harried and have to see a number of patients till the end of a day      Why Am I So Anxious?
