*Captain America and the American Journey, 1940-2022* Richard A. Hall, 2024-02-16 Captain America made his debut in 1940 just two years behind the first comic book superheroes and five years before the United States emergence as the world's primary superpower at the end of World War II His journey has been intertwined with America's progress throughout the decades Known as the Sentinel of Liberty he has frequently provided socio political commentary on current events as well as inspiration and warnings concerning the future This work explores the interconnected histories of the United States and Captain America decade by decade from the character's origins to Chris Evans portrayal of him in the Marvel Cinematic Universe It examines how Captain America's story provides a guide through America's tenure as a global superpower holds a mirror up to American society and acts as a constant reminder of what America can and should be Hegemonic Mimicry Kyung Hyun Kim, 2021-09-13 In *Hegemonic Mimicry* Kyung Hyun Kim considers the recent global success of Korean popular culture the Korean wave of pop music cinema and television which is also known as hallyu from a transnational and transcultural perspective Using the concept of mimicry to think through hallyu's adaptation of American sensibilities and genres he shows how the commercialization of Korean popular culture has upended the familiar dynamic of major to minor cultural influence enabling hallyu to become a dominant global cultural phenomenon At the same time its worldwide popularity has rendered its Koreanness opaque Kim argues that Korean cultural subjectivity over the past two decades is one steeped in ethnic rather than national identity Explaining how South Korea leaped over the linguistic and cultural walls surrounding a supposedly minor culture to achieve global ascendance Kim positions K pop Korean cinema and television serials and even electronics as transformative acts of reappropriation that have created a hegemonic global ethnic identity
