**The Matter of History** Timothy J. LeCain, 2017-07-31 New insights into the microbiome epigenetics and cognition are radically challenging our very idea of what it means to be human while an explosion of neo materialist thinking in the humanities has fostered a renewed appreciation of the formative powers of a dynamic material environment The Matter of History brings these scientific and humanistic ideas together to develop a bold new post anthropocentric understanding of the past one that reveals how powerful organisms and things help to create humans in all their dimensions biological social and cultural Timothy J LeCain combines cutting edge theory and detailed empirical analysis to explain the extraordinary late nineteenth century convergence between the United States and Japan at the pivotal moment when both were emerging as global superpowers Illustrating the power of a deeply material social and cultural history The Matter of History argues that three powerful things cattle silkworms and copper helped to drive these previously diverse nations towards a global Great Convergence
