Wilson Company, 2007 Includes an abridged edition of 1908 catalog issued under title English prose fiction list of about 800 title *The New Jewish Argentina* Adriana Brodsky, Raanan Rein, 2012-09-28 Congratulations to Adriana Brodsky and Raanan Rein whose edited volume has been chosen as the winner of the 2013 Latin American Jewish Studies Association Book Prize The New Jewish Argentina aims at filling in important lacunae in the existing historiography of Jewish Argentines Moving away from the political history of the organized community most articles are devoted to social and cultural history including unaffiliated Jews women and gender criminals printing presses and book stores These essays written by scholars from various countries consider the tensions between the national and the trans national and offer a mosaic of identities which is relevant to all interested in Jewish history Argentine history and students of ethnicity and diaspora This collection problematizes the existing image of Jewish Argentines and looks at Jews not just as persecuted ethnics idealized agricultural workers or as political actors in Zionist politics This book is a must read for students and scholars interested in immigration to Latin America Ethnic History and Jewish Studies but its readership could extend to anybody who is interested in this chapter of social and cultural history Ariana Huberman Haverford College Play Among Books Miro Roman, Alice_ch3n81, 2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science Facing the Abyss George Hutchinson, 2018-01-23 Mythologized as the era of the good war and the Greatest Generation the 1940s are frequently understood as a more heroic uncomplicated time in American history Yet just below the surface a sense of dread alienation and the haunting specter of radical evil permeated American art and literature Writers returned home from World War II and gave form to their disorienting experiences of violence and cruelty They probed the darkness that the war opened up and confronted bigotry existential guilt ecological concerns and fear about the nature and survival of the human race In Facing the Abyss George Hutchinson offers readings of individual works and the larger intellectual and cultural scene to reveal the 1940s as a period of profound and influential accomplishment Facing the Abyss examines the relation of aesthetics to politics the idea of universalism and the connections among authors across racial ethnic and gender divisions Modernist and avant garde styles were absorbed into popular culture as writers and artists turned away from social realism to emphasize the process of artistic creation Hutchinson explores a range of important writers from Saul Bellow and Mary McCarthy to Richard Wright and James Baldwin African American and Jewish novelists critiqued racism and anti-Semitism

women writers pushed back on the misogyny unleashed during the war and authors such as Gore Vidal and Tennessee Williams reflected a new openness in the depiction of homosexuality The decade also witnessed an awakening of American environmental and ecological consciousness Hutchinson argues that despite the individualized experiences depicted in these works a common belief in art's ability to communicate the universal in particulars united the most important works of literature and art during the 1940s Hutchinson's capacious view of American literary and cultural history masterfully weaves together a wide range of creative and intellectual expression into a sweeping new narrative of this pivotal decade
