Nunes, 2014-01-07 In recent years a new disquieting form of disruptive innovation has emerged one that beats incumbents on both price and quality right from the start and quickly sweeps through every customer segment This kind of big bang disruption can devastate entire product lines virtually overnight Look at the effect that free navigation apps preloaded on smartphones had on the market for devices made by TomTom Garmin and Magellan Big bang disruptions often come out of the blue from people who aren't your traditional competitors Frequently they're developed by inventors who are just doing low cost experiments with existing technologies to see what new products they can dream up Once launched these innovations don't adhere to conventional strategic paths or normal patterns of market adoption That makes them incredibly hard to combat Though technology and information intensive firms are most vulnerable to big bangs mature industries face this threat too Credit cards automobiles and education for instance are all experiencing early warning signs But in every industry big bang disruption will be keeping executives in a cold sweat for a long time to come This article which originally appeared in Harvard Business Review offers some strategic principles to help businesses survive big bangs Price Management Hermann Simon, Martin Fassnacht, 2018-12-11 In this book the world's foremost experts on pricing integrate theoretical rigor and practical application to present a comprehensive resource that covers all areas of the field This volume brings together quantitative and qualitative approaches and highlights the most current innovations in theory and practice Going beyond the traditional constraints of price theory and price policy the authors coined the term price management to represent a holistic approach to pricing strategy and tactical implementation They remind us that the Ancient Romans used one word pretium to mean both price and value This is the fundamental philosophy that drives successful price management where producer and customer meet Featuring dozens of examples and case studies drawn from their extensive research

consulting and teaching around the world Simon and Fassnacht cover all aspects of pricing following the price management process with its four phases strategy analysis decision and implementation Thereby the authors take into account the nuances across industry sectors including consumer goods industrial products services and trade distribution In particular they address the implications of technological advancements such as the Internet and new measurement and sensor technologies that have led to a wealth of price management innovations such as flat rates freemium pay per use or pay what you want They also address the emergence of new price metrics Big Data applications two sided price systems negative prices and the sharing economy as well as emerging payment systems such as bitcoin The result is a bible for leaders who recognize that price is not only a means to drive profit in the short term but a tool to generate sustained growth in shareholder value over the longer term and a primer for researchers instructors and students alike Praise for Price Management This book is truly state of the art and the most comprehensive work in price management Prof Philip Kotler Kellogg School of Management Northwestern University This very important book builds an outstanding bridge between science and practice Kasper Rorsted CEO Adidas This book provides practical guidelines on value creation communication and management which is an imperative for businesses to survive in the coming era of uncertainty Dr Chang Gyu Hwang Chairman and CEO KT Corporation Korea Telecom

Introducing Sociology Using the Stuff of Everyday Life Josee Johnston,Kate Cairns,Shyon Baumann,2025-10-03 The challenges of teaching a successful introductory sociology course today demand materials very different from the norm It is a question of making the practice of sociological thinking meaningful rigorous and relevant to today s world of undergraduates This comparatively concise highly visual and engaging book offers a refreshingly new way forward to reach students using one of the most powerful tools in a sociologist s teaching arsenal the familiar stuff in students everyday lives throughout the world the jeans they wear to class the coffee they drink each morning or the phones their professors tell them to put away during lectures A focus on consumer culture seeing the strange in the familiar is not only interesting for students it is also the authors suggest pedagogically superior to more traditional approaches By engaging students through their stuff this book moves beyond teaching about sociology to helping instructors

teach the practice of sociological thinking It moves beyond describing what sociology is so that students can practice what sociological thinking can do This pedagogy also posits a relationship between teacher and learner that is bi directional Many students feel a sense of authority in various areas of consumer culture and they often enjoy sharing their knowledge with fellow students and with their instructor Opening up the sociology classroom to discussion of these topics validates students expertise on their own life worlds Teachers in turn gain insight from the goods services and cultural expectations that shape students lives While innovative the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester A map on pages xix xx identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained Theory method and active learning exercises in every chapter constantly encourage the sociological imagination as well as the doing of sociology This new edition is thoroughly revised and updated incorporating the latest research around material sociology culture and object oriented studies New teaching materials and illustrations are included Online resources to support teaching and learning include Videos flashcards quizzes and further reading Instructor s manual PowerPoints and test bank

**The Media Handbook** Helen Katz, 2019-05-03 The Media Handbook provides a practical introduction to the advertising media planning and buying processes Emphasizing basic calculations and the practical realities of offering alternatives and evaluating the plan this seventh edition includes greater coverage of social media buying automation the continued digitization of media and updated statistics on media consumption It covers over the top television programmatic TV digital advertising and the automation of buying across all media Author Helen Katz provides a continued focus on how planning and buying tie back to the strategic aims of the brand and the client keeping practitioners and students up to date with current industry examples and practices The Companion Website to the book includes resources for both students and instructors For students there are flashcards to test themselves on main concepts a list of key media associations a template flowchart and formulas Instructors can find lecture slides and sample test questions to assist in their course preparation

*Bittersweet Lane* Jamie Madden, 2025-11-18 The Bitter Reality The Sweet Solutions The Lane Forward Housing dominates headlines yet few truly understand how affordable housing works or why it s failing Bittersweet Lane is the first book to demystify America s housing crisis from both a professional and deeply personal perspective Spanning from Ireland to America from the Bittersweet Lane Apartments to M I T Bittersweet Lane also carries the stories and deep scars of intergenerational poverty while offering a bold vision for change Written by a community development professional with expertise in housing development and public policy Madden blends gripping memoir with sharp policy insights to expose the brutal history of housing in the U S and the tools we already have to fix it A raw eye opening journey through class race and urban development Bittersweet Lane offers A class crossing insider s perspective from houseing insecurity to shaping policy A clear breakdown of affordable housing without the jargon Real solution to the crisis and why we haven t implemented them Though the barriers to housing justice

seem insurmountable the solutions are within reach Bittersweet Lane doesn't just explain the crisis it shows how we can all find home Innovative Pricing Strategies to Increase Profits, Second Edition Daniel Marburger, 2015-09-08 Perhaps the most confounding characteristic of the competitive marketplace is that everyone wants a piece of the action If a firm successfully enters a new market creates a new product or designs new innovations for an existing product it's just a matter of time before competitors follow suit And the influx of competition inevitably places downward pressure on both price and profitability Whether you're an economics student or a manager with absolutely no background in economics this book will help you make better decisions and learn more about the Five Forces Model first published in 1979 by Harvard economist Michael Porter which identifies the characteristics that can help insulate a firm from competitive forces This book brings microeconomic theory into the world of the business manager rather than the other way around The author expounds on microeconomic theory enabling economists to take the knowledge back to the office and apply it The Wall Street Journal, 2009
