Subcommittee on Oversight,1980      **Cost-sharing and Accessibility in Higher Education: A Fairer Deal?** Pedro N. Teixeira,D. Bruce Johnstone,Maria J. Rosa,Hans Vossensteyn,2006-04-06 The demand and the costs for higher education have risen steeply in recent years The most common response worldwide has been some form of cost sharing shifting per student costs from governments and taxpayers to parents and students This timely book provides a comprehensive discussion of the concepts and consequences of cost sharing in higher education It offers a comparative approach based on several national case studies and proposes alternatives to prevalent approaches      **House of Commons - Committee of Public Accounts: Student Loan Repayments - HC 886** Great Britain: Parliament: House of Commons: Committee of Public Accounts,2014-02-14 There is at present around 46 billion of outstanding student loans on the Government's books and this figure is set to rise dramatically to 200 billion by 2042 in 2013 prices By 2042 there will be an estimated 6.5 million borrowers of student loans At the same time estimates for the amount of loans that will not be repaid are also rising and the Government assumes that 35-40% of outstanding loans will never be repaid That is some 16 billion to 18 billion on the current debt of 46 billion and 70 billion to 80 billion on the estimated value of student loans by 2042 The Department for Business Innovation Skills the Department is not doing enough to secure value for money from its collection arrangements The Department is unable to accurately forecast student loan repayments and does not have a sufficient understanding of the likely future cost of non repayment to the taxpayer The Student Loans Company is not doing enough to ensure that it identifies and collects all the repayments due given the substantial size of the financial assets involved and will need to demonstrate value for money from the proposed sale of the student loans book      **Policy Options for Student Loans Schemes** Adrian Ziderman,2004      Resources in Education ,1998      Education at a Glance 2022 OECD Indicators OECD,2022-10-03 Education at a Glance is the authoritative source for data on the state of education around the world The 2022 edition focuses on tertiary education looking at the rise of tertiary attainment and the associated benefits for individuals and for societies      **Higher Education Amendments of 1968** United States. This has resulted in a dual track system that is affecting the equity of access to higher education. The authors have addressed this with a variety of financing mechanisms in the EU8 countries and seek to develop some useful policy options to level the playing field for countries contemplating further reforms which would include the introduction of variable fees, needs based grants and loans to increase private financial flows into higher education while facilitating equal access across the board. The study begins with an introduction. Chapter 2 provides an overview of current higher education systems in the EU8 in a comparative perspective. Chapter 3 suggests some directions for further reform initiatives. Chapter 4 concludes.
