

# Native Science

The background of the book cover is a vibrant illustration. It depicts two figures, possibly Native Americans, standing on a dark, rocky ground. They are holding long, thin poles that cross each other in the center. The poles are illuminated with a bright orange light. The sky is a deep blue, filled with stars and a large, bright, glowing blue and white nebula or star cluster. The overall composition suggests a connection between traditional knowledge and modern science.
