miracle and sin T. A (Thomas Alexander) Lacey, 1916 *Nature, Sex, and Goodness in a Medieval Literary Tradition* Hugh White, 2000 Nature is a highly important term in the ethical discourse of the Middle Ages and as such a leading concept in medieval literature This book examines the moral status of the natural in writings by Alan of Lille Jean de Meun John Gower Geoffrey Chaucer and others showing how particularly in the erotic sphere the influences of nature are not always conceived as wholly benign Though medieval thinkers often affirm an association of nature with reason and therefore with the good there is also an acknowledgement that the animal the pre rational the instinctive within human beings may be validly considered natural In fact human beings may be thought to be urged almost ineluctably by the force of nature within them towards behaviour hostile to reason and the right *A History and Critique of Methodological Naturalism* Joseph B. Onyango Okello, 2016-07-21 Methodological naturalism is the thesis that only natural features can be factored into any legitimate explanation Moreover the thesis contends any attempt to explain natural phenomena by appealing to supernatural features is unscientific and therefore illegitimate This book argues that nothing inherently problematic afflicts possible appeals to supernatural agency in the attempt to explain select phenomena in nature Reputable philosophers of the ancient and medieval periods as well as prominent scientists of the early modern era invoked supernatural agency in their attempts to understand nature For them miraculous interventions in nature by a supernatural agent were not unreasonable However the super naturalistic worldview has been replaced by methodological naturalism The assumptions of two pivotal figures David Hume and Charles Darwin brought about this change This book shows that this change was motivated by unscientific means Hence the change itself remains inconsistent with the assumptions of methodological naturalism Miracles : 2 Volumes Craig S. Keener, 2011-11-01 Christianity Today 2013 Book Award Winner Winner of The Foundation for Pentecostal Scholarship s 2012 Award of Excellence 2011 Book of the Year Christianbook com s Academic Blog Most modern prejudice against biblical miracle reports depends on David Hume s argument that uniform human experience precluded miracles Yet current research shows that human experience is far from uniform In fact hundreds of millions of people today claim to have experienced miracles New Testament scholar Craig Keener argues that it is time to rethink Hume s argument in light of the contemporary evidence available to us This wide ranging and meticulously researched two volume study presents the most thorough current defense of the credibility of the miracle reports in the Gospels and Acts Drawing on claims from a range of global cultures and taking a multidisciplinary approach to the topic Keener suggests that many miracle accounts throughout history and from contemporary times are best explained as genuine divine acts lending credence to the biblical miracle reports **Nature, Miracle and Sin: a Study of St. Augustine's Conception of the Natural Order ... The Pringle Stuart Lectures for 1914** Thomas Alexander Lacey, 1916 **Freedom and Necessity** Gerald Bonner, 2007-02 This book seeks to explain this paradox in Augustine s theology by tracing how these different emphases arose in his thought and speculating as to why he endorsed in the end his theology of predestination T Pannenberg on Evil, Love and God Mark

Hocknull,2016-05-13 Pannenberg on Evil Love and God examines a much neglected aspect of the theological thought of one of the most original contemporary German theologians Wolfhart Pannenberg his theological and philosophical understanding of evil and its relationship to the love of God The book seeks to correct a widely held misconception that in his theology Pannenberg has neglected the darker side of the world concentrating instead on an optimistic picture of the future This book argues that questions of evil hold a central place throughout Pannenberg s writing and seeks to draw out the implications of his wrestling with these issues The Introduction sets the scene by considering the nature of the question of evil and argues that a theological response must be made as part of a global view of the world and not in isolation from other themes The succeeding chapters develop this theme through a reading of Pannenberg s theology *The Fear of Freedom* Rowan A. Greer,2010-11 By the fear of freedom Greer means the unconscious flight from the heavy burden of individual choice an open society lays upon its members The miraculous represents a heavenly power brought down to earth and tied to the life of the community Understanding how miracles were perceived in the late antiquity requires us to put aside the notion of a miracle as the violation of the natural order Miracles for the church fathers refers to anything that evokes wonder Rowan Greer is not concerned with conclusions about the truth or falsity of the miracles reported in the ancient sources He is concerned with how the miracle stories shaped the way people understood Christianity in the fourth and fifth centuries Once the Church gained the predominance in the Empire as part of the Constantinian revolution most Christians thought that a new Christian commonwealth was in the making The miracles associated with the cult of the saints the martyrs and their relics in the Christian Empire were part of this sacralization In the Roman imperial church we find a tension between the Christian message which revolved around virtue and the individual and corporate piety that focused upon the empowering of the people of God With Augustine we find Christian Platonism transformed into a new theology far more congruent with the corporate poetry that had by then developed An emphasis upon grace and upon God s sovereignty fits a preoccupation with miracles better than the old emphasis upon human freedom and virtue and sets the stages for the Western Middle Ages and the cult of the saints organized and made central to Christian piety From a study of Roman imperial Christianity before the collapse of the West we discover the tendency to substitute one kind of freedom for another Freedom as the capacity of human beings to choose the good does not of course disappear but on the whole it is made subordinate to notions of God s sovereign grace and even to an insistence upon the authority of the church *The Living Church* ,1894 **The British Friend** ,1895 **The Case for Christian Humanism** R. W. Franklin,Joseph M. Shaw,1991 This is a print on demand book and is therefore non returnable Franklin and Shaw make a convincing case historical biblical liturgical and theological in focus for the essential compatibility of humanism and the Christian faith Long neglected and often misunderstood the rich tradition of Christian humanism offers much potential for greater personal and societal wholeness *The New World* ,1895 Includes section Book reviews **A Religious Encyclopædia, Or, Dictionary of Biblical, Historical, Doctrinal, and**
