Right Marjorie Vannoy Fields, Lois A. Groth, Katherine Spangler, 2004 Written from a constructivist viewpoint this popular book for future teachers of children from preschool through the primary grades focuses on how young children construct literacy and how teachers can support and guide that activity through developmentally appropriate teaching practices Advocates giving children a choice of the reading material from which they will learn and caution against grouping children solely by literacy ability Examines current research into emergent and holistic literacy and tie its findings to instructional practices that teach such skills as phonemic awareness phonics and spelling within the context of meaningful reading and writing tasks Increased coverage of assessment emphasizes performance based alternatives to standardized testing during early childhood and examines current recommendations in terms of developmentally appropriate practice Provides a strong explanation of shared and interactive writing Discusses literacy development in infants and toddlers For future or current teachers interested in literacy or reading methods in early childhood *The Learning and Teaching of Reading and Writing* Naomi Flynn, Rhona Stainthorp, 2006-07-11 This book provides a unique description of teacher pupil interaction during the Literacy Hour in good schools It is based on detailed observations in inner city primary schools that were recognised as effective and improving The analysis is informed by contemporary research into the development and teaching of early literacy The book provides practice based examples of how teachers and schools might adapt their delivery for literacy as they move to greater creativity in their teaching of reading and writing The analysis begins within the classrooms of three expert Key Stage 1 teachers and broadens out in to the wider setting of the schools and their senior management teams An important theme running throughout the book is how the three teachers were able to make exceptional provision for their pupils who were largely second language speakers and from socio economically disadvantaged groups The teachers successful practice grew from their understanding of both early literacy development and planning for individual need The information in this book will enable student teachers recently qualified teachers and teachers interested in enhancing their literacy teaching to develop their practice in a similarly successful way *Research Report on Basic Adult Education Program* University of Detroit.
