European Yearbook of International Economic Law 2015 Christoph Herrmann,Markus Krajewski,Jörg Philipp Terhechte,2015-07-04 This sixth volume 2015 of the European Yearbook of International Economic Law puts a particular emphasis on non tariff barriers NTBs to trade and the world trade order With the steady reduction of tariff rates since the GATT 47 came into force focus in recent years has been on the vast and complex landscape of non tariff barriers to trade States as well as scholars seemingly struggle with the multitude of measures pooled under this expression as there is no single acknowledged definition of the term and its relation to the term non tariff measures remains equally blurred Particularly in practice and on a multilateral level there appears to be some awkwardness when it comes to coping with NTBs since multilateral trade rules seem to be in conflict with national regulatory autonomy in the pursuit of policy objectives In part one this volume sheds light on the problems of non tariff barriers to trade that arise in various fields Part two focuses on regional integration with an emphasis on relations between East Asia and the European Union In this regard the authors outline the trade and investment relations between the European Union and East Asia including Japan Korea and Singapore Part three offers an overview of recent institutional developments in WIPO ICSID WTO and WTO jurisprudence Part four includes book reviews of recent works in the field of international economic law and part five introduces a new section on publications in the field of international economic law that were released in 2013 and 2014

Shadow Sovereigns Susan George,2015-08-05 Lobbying has long been part of the political landscape But in recent years links between big business and

government have become stronger and more far reaching than ever Global corporations now demand control over decisions affecting labour laws finance public health food and agriculture safety regulations taxes and international trade and investment They even claim the right to private tribunals where they can sue governments for passing laws that could harm their present or future profits These business elites dont want to govern directly They operate behind the scenes directing planning setting standards and fashioning government to maximise their own profits Thanks to the UN Global Compact they have extended their influence to the highest levels of multilateral decision making and now via the Davos inspired Global Redesign Initiative they are setting their sights on managing world wide public policy Elected by and accountable to no one secretive and highly organized these shadow sovereigns are destroying the very notion of the common good and making a mockery of democracy It is high time we challenged this assault on our rights and our institutions In this incisive and clear sighted book Susan George provides us with the practical knowledge to do just that *The Transatlantic Colossus* Daniel Cardoso, Philani Mthembu, Marc Venhaus, Miguelángel Verde Garrido, 2014-01-17 Now available online The Transatlantic Colossus Global Contributions to Broaden the Debate on the EU US Free Trade Agreement 2014 a publication from the Berlin Forum on Global Politics BFoGP in collaboration with the Internet Society Collaboratory and FutureChallenges org of the Bertelsmann Stiftung The free trade agreement TAFTA TTIP currently being negotiated between the United States and the European Union has the potential to significantly impact the lives of people on both sides of the Atlantic and across the world Because it is crucial to broaden the debate on this topic of global importance the Berlin Forum on Global Politics decided to send out an international call for papers in order to collect a strong plurality of views on TAFTA TTIP as part of the Collaboratory s Initiative on Globalization and the Internet The result is an open knowledge publication freely accessible under its Creative Commons BY license which includes 22 articles written by a multitude of well informed global stakeholders members of civil society academia think tanks consumer and activist groups and business organizations
