Barons Austin Frerick, 2025-09-02 Now with a new chapter on the Distribution Barons Best Books of 2024 Frerick's prose throughout is both direct and masterfully controlled with every point supported by extensive references and notes This is no alarmist screed but rather a careful systematic and utterly damning demolition job an exquisitely informed expos A genuinely revelatory look at mass food production in the United States Kirkus Reviews starred In this eye opening debut study Frerick an agricultural policy fellow at Yale University reveals the ill gained stranglehold that a handful of companies have on America's food economy It's a disquieting critique of private monopolization of public necessities Publishers Weekly starred *Barons* is the story of eight titans of the food industry their rise to power and the consequences for workers eaters and democracy itself Readers will meet a secretive German family that took over the global coffee industry in less than a decade relying on wealth traced back to the Nazis to gobble up countless independent roasters They will visit the Disneyland of agriculture where school children ride trams through mechanized warehouses filled with tens of thousands of cows that never see the light of day And they will learn that in the food business crime really does pay especially when you can bribe and then double cross the president of Brazil *Barons* paints a stark portrait of corporate consolidation but it also shows that a fair healthy and prosperous food industry is possible if we take back power from the barons who have robbed us of it

Exploring Intelligent Decision Support Systems Rafael Valencia-García, Mario Andrés Paredes-Valverde, María del Pilar Salas-Zárate, Giner Alor-Hernández, 2018-02-07 This book presents innovative and high quality research regarding advanced decision support systems DSSs It describes the foundations methods methodologies models tools and techniques for designing developing implementing and evaluating advanced DSSs in different fields including finance health emergency management industry and pollution control Decision support systems employ artificial intelligence methods to heuristically address problems that are cannot be solved using formal techniques In this context technologies such as the Semantic Web linked data big data and machine learning are being applied to provide integrated support for individuals and organizations to make more rational decisions The book is organized into two parts The first part covers decision support systems for industry while the second part presents case studies related to clinical emergency management and pollution control

Growing Gardens, Building Power Justin Sean Myers, 2022-10-14 Across the United States marginalized communities are organizing to address social economic and environmental inequities through building community food systems rooted in the principles of social justice But how exactly are communities doing this work why are residents tackling these issues through food what are their successes and what barriers are they encountering This book dives into the heart of the food justice movement through an exploration of East New York Farms ENYF one of the oldest food justice organizations in Brooklyn and one that emerged from a bottom up asset oriented development model It details the food inequities the community faces and what produced them how and why residents mobilized to turn vacant land into community gardens and

the struggles the organization has encountered as they worked to feed residents through urban farms and farmers markets This book also discusses how through the politics of food justice ENYF has challenged the growth oriented development politics of City Hall opposed the neoliberalization of food politics navigated the funding constraints of philanthropy and the welfare state and opposed the entrance of a Walmart into their community Through telling this story Growing Gardens Building Power offers insights into how the food justice movement is challenging the major structures and institutions that seek to curtail the transformative power of the food justice movement and its efforts to build a more just and sustainable world

Information Technology for Management Efraim Turban,Carol Pollard,Gregory R. Wood,2021 Information Technology for Management provides students with a comprehensive understanding of the latest technological developments in IT and the critical drivers of business performance growth and sustainability Integrating feedback from IT managers and practitioners from top level organizations worldwide the International Adaptation of this well regarded textbook features thoroughly revised content throughout to present students with a realistic up to date view of IT management in the current business environment This text covers the latest developments in the real world of IT management with the addition of new case studies that are contemporary and more relevant to the global scenario It offers a flexible student friendly presentation of the material through a pedagogy that is designed to help students easily comprehend and retain information There is new and expanded coverage of Artificial Intelligence Robotics Quantum Computing Blockchain Technology IP Intelligence Big Data Analytics IT Service Management DevOps etc It helps readers learn how IT is leveraged to reshape enterprises engage and retain customers optimize systems and processes manage business relationships and projects and more

How Walmart Inc can successfully enter Singapore market Difrine Madara,2020-12-09 Academic Paper from the year 2020 in the subject Communications Public Relations Advertising Marketing Social Media grade A Kenyatta University course International Marketing language English abstract Singapore is the most developed economy in the Southeast Asia region with a GDP per capita of more than 90000 The country has a well developed retail sector buoyed with strong consumer base high disposable incomes high literacy rates and its strategic location This presented a review of macro environment competitive and SWOT analyses of the Singapore s retail industry to determine how Walmart Inc can successful enter the market The review found that the strength of Singapore lies on its favorable business laws and regulations business friendly tax rates and high disposable incomes among Singaporeans Singapore is also highly developed in terms of physical infrastructure and serves as one of the busiest air traffic and sea port hubs in the world The high disposable income and economic freedom makes it hugely attractive for retail business like Walmart Stable political climate and socio cultural diversity also attracts new businesses to the country However the study found that corona virus pandemic and high labour and rental costs posed the biggest threats to Singapore retail industry Nonetheless the paper suggests adoption of franchising market entry strategy as the most appropriate Franchising is the most appropriate approach due to low costs and

reduced risks of failure To be successful the retailer must select a franchisee of good reputation and with a shared vision Lastly Walmart can select a franchisee and prepare to enter Singapore market after country opens up for business in the aftermath of the current pandemic

Foodopoly Wenonah Hauter, 2015-04-07 A meticulously researched tour de force on politics big agriculture and the need to go beyond farmers markets to find fixes Publishers Weekly Wenonah Hauter owns an organic family farm that provides healthy vegetables to hundreds of families as part of the Community Supported Agriculture CSA movement Yet as a leading healthy food advocate Hauter believes that the local food movement is not enough to solve America s food crisis and the public health debacle it has created In *Foodopoly* she takes aim at the real culprit the control of food production by a handful of large corporations backed by political clout that prevents farmers from raising healthy crops and limits the choices people can make in the grocery store Blending history reporting and a deep understanding of farming and food production *Foodopoly* is a shocking revealing account of the business behind the meat vegetables grains and milk most Americans eat every day including some of our favorite and most respected organic and health conscious brands Hauter also pulls the curtain back from the little understood but vital realm of agricultural policy showing how it has been hijacked by lobbyists driving out independent farmers and food processors in favor of the likes of Cargill Tyson Kraft and ConAgra *Foodopoly* shows how the impacts ripple far and wide from economic stagnation in rural communities to famines overseas and argues that solving this crisis will require a complete structural shift a change that is about politics not just personal choice
