Memes Today Ideas Tutorial:

Computational Collective Intelligence Ngoc Thanh Nguyen, George A. Papadopoulos, Piotr Jędrzejowicz, Bogdan Trawiński, Gottfried Vossen, 2017-09-18 This two volume set LNAI 10448 and LNAI 10449 constitutes the refereed proceedings of the 9th International Conference on Collective Intelligence ICCCI 2017 held in Nicosia Cyprus in September 2017 The 117 full papers presented were carefully reviewed and selected from 248 submissions The conference focuses on the methodology and applications of computational collective intelligence included multi agent systems knowledge engineering and semantic web social networks and recommender systems text processing and information retrieval data mining methods and applications sensor networks and internet of things decision support control systems and computer vision techniques

Informing Science Volume One: Concepts and Systems T. Grandon Gill, 2016 The two volume Informing Science series is the first attempt to survey and synthesize research in the informing science transdiscipline Part textbook part collection of readings the two volumes present both important research findings relating to the field and highlight fertile directions for future research Volume One Concepts and Systems focuses on the key building blocks of informing science It begins with an overview of the transdiscipline tracing its evolution from Cohen's original proposal to its present state Next it considers a series of concepts that frequently elude attempts at rigorous definition Among these theory research information knowledge and complexity With working definitions established it goes on to explore basic systems theory introducing the concept of an informing system The key elements of such systems the channel the sender informer and the receiver client are then examined individually The volume concludes with two overview chapters The first of these looks at the analysis of a basic informing system in which a single informer interacts directly with a clearly specified client or set of clients The last chapter extends these ideas to the more complex topologies e.g. multiple channels multiple informers multiple clients layers of informing that are more typical in real world informing contexts

Evidence-based Pediatrics and Child Health Virginia Moyer, Elizabeth Elliott, 2008-04-15 Evidence Based Pediatrics and Child Health is a ground breaking new text on pediatrics and child care management using evidence based approach It covers all the major childhood conditions and contains the features of both a handbook and a reference text Each chapter combines both advice on management and how best to practice evidence based medicine with reviews of all the available evidence in a specific area The goal of the book is to help pediatricians and others who care for children to provide the best possible care by combining the best most current evidence with special circumstances of each individual patient
