Headlines That Matter Kavita Chandran, Saldene Lyte, 2025 Not every news announcement grabs a financial trader's attention prompting them to initiate a buy or sell call. Glued to their screens every day, traders are alerted to important information by journalists who work with news agencies such as Reuters, Bloomberg, Associated Press, and Dow Jones, to name a few. American wires or regional wire services such as Agence France Presse, AFP, Press Trust of India, PTI, or Algemeen Nederlands Persbureau, ANP. The urgent news flashes come from journalists who have impeccable news judgement along with the ability to think and write at great speed. What is it that these journalists look for in company press releases, remarks by political leaders, or comments by central bankers? How do they evaluate corporate scandals and communications on sensitive social and political issues? What about food recalls, labor disputes, and supply chain problems? Why do markets react to such headlines and news updates? Using many recent examples of headlines that influenced the markets, two former Bloomberg headline writers reveal the workings and thought processes of an adrenaline-packed team which caters to those who deal with money matters within seconds, day in and day out. The insights in this book benefit students of both business journalism and finance, as well as CEOs, corporate communications directors, and wealth managers, investors, and traders.

Quite often though it is eye-opening. Hugo Rifkind. The Times. Does a valuable job of explaining how Amazon sees itself. Financial Times. Amazon is the business story of the decade. Jeff Bezos, the richest man on the planet, has built one of the most efficient wealth creation machines in history. Like a giant squid, Amazon's tentacles are squeezing industry after industry and in the process upsetting the state of technology, the economy, job creation, and society at large. So pervasive is Amazon's impact that business leaders in almost every sector need to understand how this force of nature operates and how they can respond to it. Saying you can ignore Jeff Bezos is equivalent to saying you could ignore Henry Ford or Steve Jobs in the early years of Ford and Apple. These titans monumentally changed how we do business, redefining the rules on a global scale. Amazon founder Jeff Bezos is the new disruptor on the block. He has created a 21st-century algorithm for business and

societal disruption He has turned the retail industry inside out is swiftly dominating cloud computing media and advertising and now has his sights trained on every other domain where money changes hands and business is transacted But the principles by which Bezos has achieved his dominance customer obsession extreme innovation and long term management all supported by artificial intelligence turning a virtuous cycle flywheel are now being borrowed and replicated Bezonomics is for some a goldmine for others a threat for still others a life shaping force whether they re in business or not Brian Dumaine s Bezonomics answers the fundamental question how are Amazon and its imitators affecting the way we live and what can we learn from them **Scientific American** ,1890
