It Came from Something Awful Dale Beran, 2019-07-30 How 4chan and 8chan fuel white nationalism inspire violence and infect politics The internet has transformed the ways we think and act and by consequence our politics The most impactful recent political movements on the far left and right started with massive online collectives of teenagers Strangely both movements began on the same website an anime imageboard called 4chan org It Came from Something Awful is the fascinating and bizarre story of sites like 4chan and 8chan and their profound effect on youth counterculture Dale Beran has observed the anonymous messageboard community s shifting activities and interests since the beginning Sites like 4chan and 8chan are microcosms of the internet itself simultaneously at the vanguard of contemporary culture politics comedy and language and a new low for all of the above They were the original meme machines mostly frequented by socially awkward and disenfranchised young men in search of a place to be alone together During the recession of the late 2000 s the memes became political 4chan was the online hub of a leftist hacker collective known as Anonymous and a prominent supporter of the Occupy Wall Street movement But within a few short years the site s ideology spun on its axis it became the birthplace and breeding ground of the alt right In It Came from Something Awful Beran uses his insider s knowledge and natural storytelling ability to chronicle 4chan s strange journey from creating rage comics to inciting riots to according to some memeing Donald Trump into the White House

The Social Media MBA in Practice Christer Holloman, 2013-10-09 The inside information that marketers and social media practitioners have been dying to get their hands on It seems like every day another self appointed social media

guru appears on the scene offering to sell you his or her surefire cure for what ails you Don't you think it's time you heard from the real experts i.e. folks like you who are responsible for delivering their companies social media strategies Based on extensive interviews with marketing media and networking professionals at many of today's most admired brands and companies The Social Media MBA in Practice provides you with detailed examples of the social media strategies in place at ADP Allianz Barclaycard Cisco Confused.com Dell Electrolux F5 Getty Images giffgaff Go Ahead Group HCL Hobart Honda Israel Foreign Office LivingSocial Macmillan Nationwide NHL Minnesota Wild Nokia Play.com PwC Rentokil Sony Mobile and Xerox This book offers The most comprehensive set of blueprints available in one book for delivering social media strategies more successfully Includes in depth case studies packed with hand on advice that you can put to work in your company immediately Covers all important strategic social media activities from improving relationships with customers to generating more sales product testing to team building

Virus of the Mind Richard Brodie, 2009-05-15 Virus of the Mind is the first popular book devoted to the science of memetics a controversial new field that transcends psychology biology anthropology and cognitive science Memetics is the science of memes the invisible but very real DNA of human society In Virus of the Mind Richard Brodie carefully builds on the work of scientists Richard Dawkins Douglas Hofstadter Daniel Dennett and others who have become fascinated with memes and their potential impact on our lives But Richard goes beyond science and dives into the meat of the issue is the emergence of this new science going to have an impact on our lives like the emergence of atomic physics did in the Cold War He would say the impact will be at least as great While atomic bombs affect everybody's life viruses of the mind touch lives in a more personal and more pernicious way Mind viruses have already infected governments educational systems and inner cities leading to some of the most pervasive and troublesome problems of society today youth gangs the welfare cycle the deterioration of the public schools and ever growing government bureaucracy Viruses of the mind are not a future worry they are here with us now and are evolving to become better and better at their job of infecting us The recent explosion of mass media and the information superhighway has made the earth a prime breeding ground for viruses of the mind Will there be a mental plague Will only some of us survive with our free will intact Richard Brodie weaves together science ethics and current events as he raises these and other very disturbing questions about memes

Winning the Race John McWhorter, 2006-12-28 In his first major book on the state of black America since the New York Times bestseller *Losing the Race* John McWhorter argues that a renewed commitment to achievement and integration is the only cure for the crisis in the African American community *Winning the Race* examines the roots of the serious problems facing black Americans today poverty drugs and high incarceration rates and contends that none of the commonly accepted reasons can explain the decline of black communities since the end of segregation in the 1960s Instead McWhorter posits that a sense of victimhood and alienation that came to

the fore during the civil rights era has persisted to the present day in black culture even though most blacks today have never experienced the racism of the segregation era McWhorter traces the effects of this disempowering conception of black identity from the validation of living permanently on welfare to gansta rap s glorification of irresponsibility and violence as a means of protest He discusses particularly specious claims of racism attacks the destructive posturing of black leaders and the hip hop academics and laments that a successful black person must be faced with charges of acting white While acknowledging that racism still exists in America today McWhorter argues that both blacks and whites must move past blaming racism for every challenge blacks face and outlines the steps necessary for improving the future of black America

Geyer's Topics ,1946 *Domus* ,2012 *Heath Science Series* ,1961 **Sales and Idea Book** ,1958 **The Saturday Review of Politics, Literature, Science and Art** ,1870 **The Journal of Speculative Philosophy** ,2006

The Toolbox for the Mind D. Keith Denton,Rebecca A. Denton,1999 This text takes an interdisciplinary approach to creativity by drawing on disciplines other than normal management areas such as psychology sociology and engineering The book instead draws upon such disciplines as physics history biology and chaos theory *Visions for the Future of Continuing Professional Education* Ronald M. Cervero,John F. Azzaretto,1990 A collection of papers from a 1988 symposium held at the University of Georgia sponsored by the Dept of Adult Education and by the Georgia Center for Continuing Education **Donahoe's Magazine** ,1891
