into this commercialised rock and pop festival sector and examines events of all sizes from mega events such as Glastonbury Festival V Festival and the Reading and Leeds Festivals to boutique events with maximum attendances as small as 250 In the past research into festivals has typically focused either on their carnivalesque heritage or on developing managerial tools for the field of Events Management Anderton moves beyond such perspectives to propose new ways of understanding and theorising the cultural social and geographic importance of outdoor music festivals He argues that changes in the sector since the mid 1990s such as professionalisation corporatisation mediatisation regulatory control and sponsorship branding should not necessarily be regarded as a process of transgressive alternative culture being co opted by commercial concerns instead such changes represent a reconfiguration of the sector in line with changes in society and a broadening of the forms and meanings that may be associated with outdoor music events
