**Music Festivals and the Politics of Participation** Roxy Robinson, 2016-04-29 The spread of UK music festivals has exploded since 2000 In this major contribution to cultural studies the lid is lifted on the contemporary festival scene Gone are the days of a handful of formulaic large events dominating the market place Across the country hundreds of boutique gatherings have popped up drawing hundreds of thousands of festival goers into the fields Why has this happened What has led to this change In her richly detailed study industry insider Dr Roxy Robinson uncovers the dynamics that have led to the formation and evolution of the modern festival scene Tracing the history of the culture as far back as the fifties this book examines the tensions between authenticity and commerce as festivals grew into a widespread professionalized industry Setting the scene as a fragmented yet highly competitive market *Music Festivals and the Politics of Participation* examines the emergence of key trends with a focus on surrealist production and popular theatricality For the first time the transatlantic relationship between British promoters and the social experiment come festival Burning Man is documented uncovering its role in promoting a politics of participation that has dramatically altered the festival experience Taking an in depth approach to examining key events including the fastest growing independent music festival in recent years Hampshire's BoomTown Fair the UK market is shown to have produced a scene that champions co production and the democratization of festival space This is a vital text for anyone interested in British culture *Annals of the Norfolk & Norwich Triennial*

Kuligowski, Marcin Poprawski, 2023-11-27 This is an original book covering all the past areas of research anyone would need to know about festivals and event based culture It is based on academic research but written in a way relevant for cultural professionals uniquely explaining the cultural power of festivals and with original empirical research the realities of organisation and management and social and economic value Dr Jonathan Vickery Reader in Cultural Policy Studies and Director Centre for Cultural and Media Policy Studies University of Warwick This book discusses music festivals in the context of the specific values they convey Today music festivals are a permanent feature of national regional and local

cultural policies a valuable asset in the tourism industry and a significant source of income for an industry that has been adversely affected by the steady decline in physical sales of music For the audience on the other hand it is an opportunity to escape from everyday life multi sensory contact with art an activity that stands for full body participation a cultural phenomenon that drags people out of their homes like no other There is one common denominator linking the above mentioned features of contemporary music festivals namely the world of values This is evident from the non accidental locations festivals spaces design planning and the line ups created consciously with great care The organisers missions logos and other symbolic organisational artefacts communicate specific values These values are explicitly mentioned by artists and audiences they can be easily identified in online forums and media reports participant behaviour festival rituals and additional festival programs are shaped on the basis of values and cooperation is built between the festival and the local community As the reader will quickly realize numbers and statistics sit alongside descriptions and quotations in this book and the organisers statements are accompanied by the opinions of academics but above all the festival audience is given a voice both through quotations and their drawings This voice is by no means uniform as it turned out that research into values was often transformed into a pretext for spinning tales about one s life situation one s political preferences and one s understanding of freedom and responsibility Memories were mixed with declarations joy with regret curses with dreams prose with poetry Thomas Pettitt was not wrong in noting that Social history has learnt to appreciate festival as a valuable window on society and its structures The authors have tried to open all the windows available Students and researchers in the fields of cultural anthropology social psychology folklore studies comparative religion sociology of culture cultural policy cultural history and cultural management will find this book highly interesting
