developers architects DevOps engineers and technical leads who need to add AI features to new or existing enterprise systems Data scientists and educators will also appreciate the code first Java centric approach     *Empire of AI* Karen Hao,2025-05-20 A NEW YORK TIMES BESTSELLER An eye opening account of the tech arms race shaping out planet from an award winning journalist and AI insider to the world of Sam Altman and OpenAI When longtime AI expert and journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission it was meant its leader Sam Altman told us to act as a check against more purely market forces But the core truth of this massively disruptive sector is that it requires an unprecedented amount of proprietary resources the compute power of scarce high end chips the sheer volume of data that needs to be amassed at scale the humans on the ground cleaning it up for sweatshop wages throughout the Global South and a truly alarming spike in the need for energy and water underlying everything We have entered a new ominous age of empire with OpenAI setting a breakneck pace as a small group of the most valuable companies in human history try to chase it down In exhilarating prose and with unparalleled access to those closest to Sam Altman Hao recounts the meteoric rise of OpenAI and shows us the sinister impact that this industry is having on society     *Integrating Technology in Literacy Instruction* Jodi Pilgrim,Sheri Vasinda,Peggy S. Lisenbee,2025-03-21 In the second edition this text has been updated to address changing literacies surrounding students and the continued importance of effective communication using technology tools in K 12 classrooms Technology has the power and potential to transform teaching and learning in classrooms and to promote active learning interaction and engagement through readily available tools and applications While both technologies and research in literacy education rapidly evolve this book presents lasting frameworks for teachers to effectively evaluate and implement digital tools to enhance classroom literacies and learning Through the lens of Universal Design for Learning UDL this text equips educators to develop inclusive learning environments that support the needs and desires of all literacy learners through the integration of technology and literacy instruction This text presents a range of current models and frameworks including SAMR RAT PICRAT T3 TPACK TIPC and EMSCI The new edition of this book has been updated to include Alignment with ISTE standards in each chapter Updates from the 2024 UDL Guidelines 3 0 Updates from the most recent 2024 National Educational Technology Plan Updated technology applications including AI and its impact Tools for teaching through remote and distance learning Each chapter includes prompts for reflection and discussion to encourage readers to consider ways literacy and technology can enable teachers to become agents of change This book will be especially beneficial for pre service undergraduate and graduate teacher candidates as well as ISTE certified educators and those seeking certification     *Rule of the Robots* Martin Ford,2021-09-14 The New York Times bestselling author of Rise of the Robots shows what happens as AI takes over our lives If you have a smartphone you have AI in your pocket AI is impossible to avoid online And it has already changed everything from how doctors diagnose disease to how you interact with friends or read the news But in Rule of the

Robots Martin Ford argues that the true revolution is yet to come In this sequel to his prescient New York Times bestseller Rise of the Robots Ford presents us with a striking vision of the very near future He argues that AI is a uniquely powerful technology that is altering every dimension of human life often for the better For example advanced science is being done by machines solving devilish problems in molecular biology that humans could not and AI can help us fight climate change or the next pandemic It also has a capacity for profound harm Deep fakes AI generated audio or video of events that never happened are poised to cause havoc throughout society AI empowers authoritarian regimes like China with unprecedented mechanisms for social control And AI can be deeply biased learning bigoted attitudes from us and perpetuating them In short this is not a technology to simply embrace or let others worry about The machines are coming and they won't stop and each of us needs to know what that means if we are to thrive in the twenty first century And Rule of the Robots is the essential guide to all of it both AI and the future of our economy our politics our lives
