Introduction to the World of Science (August)

Students who demonstrate understanding can:

During the first month of school introduce students to the world of science through the use of trade books, applying their five senses, tools that could be used by a scientist, rules and procedures that scientists may have to follow when applying science concepts, and talking about what are topics that may be covered in science, etc.

Introduction to Engineering Design/Inquiry (September)

Students who demonstrate understanding can:

During this time period engage students in various science learning experiences that allows them to develop a foundation for science application.

K-2-ETS1-1. Ask questions, make observations, and gather information about a situation people want to change to define a simple problem that can be solved through the development of a new or improved object or tool.

K-2-ETS1-2. Develop a simple sketch, drawing, or physical model to illustrate how the shape of an object helps it function as needed to solve a given problem.

K-2-ETS1-3. Analyze data from tests of two objects designed to solve the same problem to compare the strengths and weaknesses of how each performs.

****These standards are to be embedded in all units of science throughout the year.**

Weather and Climate (October/November)

Students who demonstrate understanding can:

K-PS3-1. Make observations to determine the effect of sunlight on Earth's surface. [Clarification Statement: Examples of Earth's surface could include sand, soil, rocks, and water] [Assessment Boundary: Assessment of temperature is limited to relative measures such as warmer/cooler.]

K-PS3-2. Use tools and materials to design and build a structure that will reduce the warming effect of sunlight on an area.*

[Clarification Statement: Examples of structures could include umbrellas, canopies, and
