**The Daēva Cult in the Gāthās** Amir Ahmadi,2015-04-10 Addressing the question of the origins of the Zoroastrian religion this book argues that the intransigent opposition to the cult of the da vas the ancient Indo Iranian gods is the root of the development of the two central doctrines of Zoroastrianism cosmic dualism and eschatology fate of the soul after death and its passage to the other world The da va cult as it appears in the G th s the oldest part of the Zoroastrian sacred text the Avesta had eschatological pretensions The poet of the G th s condemns these as deception The book critically examines various theories put forward since the 19th century to account for the condemnation of the da vas It then turns to the relevant G thic passages and analyzes them in detail in order to give a picture of the cult and the reasons for its repudiation Finally it examines materials from other sources especially the Greek accounts of Iranian ritual lore mainly in the context of the mystery cults Classical Greek writers consistently associate the nocturnal ceremony of the magi with the mysteries as belonging to the same religious cultural category This shows that Iranian religious lore included a nocturnal rite that aimed at ensuring the soul s journey to the beyond and a desirable afterlife Challenging the prevalent scholarship of the Greek interpretation of Iranian religious lore and proposing a new analysis of the formation of the Hellenistic concept of magic this book is an important resource for students and scholars of History Religion and Iranian Studies
