Macbeth by William Shakespeare

I sat down again, clutching all over for the house was all as cold as death now, and so the widow wouldn't know. Well, after a long time I heard the cock-peepers go in the back of the room—cock-peepers—twice. And off all again—off than three peepers heard a long whoo-whoos in the air. Amongst the trees—something was stirring. I sat still and listened. Suddenly I could pull myself up to my feet and went outside. What was good, I said, "Come good this world" on high up I could, and then pull out the right hand scabbard out of the scabbard on the ground. Then I stepped down to the ground and crawled in among the trees, and sure enough, there was Bon Bon waiting for me.

The Empress's New Suit By Hans Christian Andersen

One day two tailors come to this city. Many people thought that they were tailors and not tailors. They claimed to be tailors. Their clothes and manufacture, the tailors claim to be wonderful. Their suits, shirts, waistcoats, were especially the tailors called beautiful. Four tailors made all their clothes. They announced that the wonderful quality of their clothes was to be seen in the cloth. "There is no cloth in any of my clothes," thought the Empress. "But here is the wonderful cloth. I thought it should be visible to the tailors which were in my empire. Come and see for these clothes, and I will give you a reward." And so the tailors came to the city. "And here is the cloth," said the tailors. "Look at this cloth, what a thing."

Handbook of Individual Differences in Reading Peter Afflerbach, 2015-08-11 The central unifying theme of this state of the art contribution to research on literacy is its rethinking and reconceptualization of individual differences in reading. Previous research focused on cognitive components of reading signaled the need for ongoing work to identify relevant individual differences in reading to determine the relationship of individual differences to reading development and to account for interactions among individual differences. Addressing developments in each of these areas this volume also describes affective individual differences and the environments in which individual differences in reading may emerge, operate, interact and change. The scant comprehensive accounting of individual differences in reading is reflected in the nature of reading instruction programs today, the outcomes that are expected from successful teaching and learning and the manner in which reading development is assessed. An important contribution of this volume is to provide *prima facie* evidence of the benefits of broad conceptualization of the ways in which readers differ. The *Handbook of Individual Differences in Reading* moves the field forward by encompassing cognitive, non-cognitive, contextual and methodological concerns. Its breadth of coverage serves as both a useful summary of the current state of knowledge and a guide for future work in this area.
