The End of College Football Nathan Kalman-Lamb, Derek Silva, 2024-10-04 In this book Nathan Kalman Lamb and Derek Silva offer an existential challenge to one of America's favorite pastimes college football Drawing on twenty five in depth interviews with former players from some of the country's most prominent college football teams Kalman Lamb and Silva explore how football is both predicated on a foundation of coercion and suffused with racialized harm and exploitation Through the stories of those who lived it the authors examine the ways in which college football must be understood as a site of harm revealing how players are systematically denied the economic value they produce for universities and offered only a devalued education in return By illuminating the plantation dynamics that make college football a particularly racialized form of exploitation the book makes legible the forms of physical sacrifice that are required the ultimate cost in health and well being and the coercion that drives players into the sport and compels them to endure such abusive conditions *The Rise of Washington State University Football* Ben Donahue, 2023 The rise of the crimson and gray In 1987 Dennis Erickson arrived in Pullman Washington to take over the struggling Washington State University football program Under his leadership the Cougars ended 1988 with a 9 3 record and a victory in the Aloha Bowl In just two years the team had transformed and Erickson's lifelong friend Mike Price took over in 1989 to build on that legacy By the end of Price's tenure WSU had appeared in five bowl games including two Rose Bowls eclipsing the four bowl games in the entire program's history The coaches also produced a number of high profile NFL quarterbacks including Drew Bledsoe and Ryan Leaf Join author Ben Donahue as he explores how the Washington State University Cougars went from doormats to perpetual contenders **The Cost of Winning** Gerald S. Gurney, 2025-04-01 An unapologetic insider's account of the corruption and greed within college athletics College sports may have begun as a benign attraction but it has since morphed into quasi professional athletic leagues that exploit higher education taxpayers and students A foremost expert in ethics in intercollegiate athletics Dr Gerald Gurney spent his career fighting the greed collusion and corruption among college presidents athletic directors and coaches playing a pivotal role in the movement for athlete well being and academic integrity *The Cost of Winning An Insider's Perspective on Exploitation and Greed in College Sports* is Dr Gurney's candid memoir covering his 40 plus years working directly with athletes as they struggled to achieve the dream of a meaningful college degree and a chance at a professional athletic career He saw firsthand the exploitation of these athletes and the blatant disregard for their education even as universities touted the educational and character building values of intercollegiate athletics Dr Gurney reveals how academic fraud works at too many NCAA Division I institutions the lengths individuals and entire programs will go to in order to win and the unsustainable path in athletic spending More than a memoir *The Cost of Winning* is an honest brave and fascinating account of some of the most remarkable triumphs and disasters in college sports history an unapologetic depiction of the well sheltered inner workings of major college athletic programs and prospects for change *Not for Long* Robert W.
