THE TRUTH OF THE ORIGIN OF THE UNIVERSE Sabrie Soloman,2024-06-12 Creation Big Bang Science Fiction or Science Madness The debate between creationism and scientific theories of the origin of the universe has been an ongoing and contentious one On one side we have the belief in a divine Creator who is responsible for the creation of the world in six days as described in the Bible On the other side we have scientific theories such as the Big Bang which posits that the universe began with a massive explosion around 13 8 billion years ago For those who adhere to the belief in a Creator the concept of a six day creation holds immense significance This belief is rooted in faith and is a fundamental tenet of many religious traditions The idea that a higher power carefully constructed the universe day by day is a source of comfort and meaning for many people Some may argue that the Big Bang theory is nothing more than science fiction or science madness dismissing it as a fanciful and unsubstantiated idea **PC Mag** ,2005-05-10 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology **Catholic School Journal** ,1956
