**Hot Rodding** David Lawrence Miller, 2018-04-17 As the automotive world looks towards a future of electric vehicles driverless technology and anonymous styling what can be learned from the individuals who resist these trends and cling to their love of street rods and muscle cars The hot rodding world still exists but will it continue to hold a place in tomorrow's automotive culture Gearhead and geographer David Miller has crisscrossed America in his custom built 1958 Chevy Apache pickup interviewing hot rodders about what drives their passions values and way of life Their collected stories present a detailed portrait of modern hot rodding a distinctly American subculture that survives by bucking the trends and attitudes that increasingly shape the transportation landscape [\*\*The Last Driver's License Holder Has Already Been Born:\*\*](#)

**How Rapid Advances in Automotive Technology will Disrupt Life As We Know It and Why This is a Good Thing** Mario Herger, 2019-07-26 How the radical disruption of the auto industry affects you and how you can prepare for the soon to be new normal The combined effect of autonomous driving electric vehicles and the sharing economy is on the verge of changing the auto industry all within the next decade And this tech economics revolution will touch virtually every industry What exactly will change Jobs Demand for commercial vehicle drivers car dealers mechanics doctors and many other professions will shrink Laws Manually driving cars will be forbidden and car ownership will be almost nonexistent Housing Prices will drop and cities and towns will be planned differently Healthcare Infrastructure will shrink as traffic accidents dramatically decline Global trade China will become the world's biggest automotive exporter The Last Driver's License

Holder Has Already Been Born provides the information and insight you need to position your company for these groundbreaking changes It reveals the disruptive technologies now taking shape and provides a timeline of when they will take hold It examines the impact on the industry itself as well as adjacent sectors including jobs and professions city and street design hospitals insurances politics security hospitality industry the oil industry real estate and society at large And it provides the knowledge and insight you need to keep yourself and your organization ahead of the curve and in front of the competition

Ludicrous Edward Niedermeyer,2019-08-20 Tesla is the most exciting car company in a generation but can it live up to the hype Tesla Motors and CEO Elon Musk have become household names shaking up the staid auto industry by creating a set of innovative electric vehicles that have wowed the marketplace and defied conventional wisdom The company's market valuation now rivals that of long established automakers and to many industry observers Tesla is defining the future of the industry But behind the hype Tesla has some serious deficiencies that raise questions about its sky high valuation and even its ultimate survival Tesla's commitment to innovation has led it to reject the careful zero defects approach of other car manufacturers even as it struggles to mass produce cars reliably and with minimal defects While most car manufacturers struggle with the razor thin margins of mid priced sedans Tesla's strategy requires that the Model 3 finally bring it to profitability even as the high priced Roadster and Model S both lost money And Tesla's approach of continually focusing on the future even as commitments and deadlines are repeatedly missed may ultimately test the patience of all but its most devoted fans In Ludicrous journalist and auto industry analyst Edward Niedermeyer lays bare the disconnect between the popular perception of Tesla and the day to day realities of the company and the cars it produces Blending original reporting and never before published insider accounts with savvy industry analysis Niedermeyer tells the story of Tesla as it's never been told before with clear eyes objectivity and insight
