EV Guidebook, 2023-10-01 Ready to take the driver's seat in the electric revolution? Unlock the full potential of electric vehicles with your essential guide to navigating this new sustainable world. This free guidebook will become your go-to resource for mastering the nuances of electric cars, equipping you with knowledge you need before making the switch to a greener lifestyle. Discover the key differences between traditional gas-powered vehicles and their electric counterparts, from maintenance to performance. Demystify the charging process and dive into the various types of stations and intricacies of plugging your EV. We break down the evolving landscape of charging infrastructure and the realities of range anxiety. Uncover tips for planning longer journeys and what type of EV fits your needs perfectly. This EV Guidebook is your passport to a seamless transition into the electric world, packed with insights, tips, and expert advice to empower you to make informed decisions.

Inevitable Mike Colias, 2025-02-04 A sweeping portrait of the EV transformation and what it means for all of us. The question is no longer if electric vehicles will happen or even when they'll happen, but how. Veteran automotive reporter Mike Colias takes you inside the transformation in this thoroughly reported profile of the hard pivot in the car business: a 2 trillion industry undergoing the biggest change in its 120-year history, a change that is already sending ripples across the entire global economy. Colias documents the inevitable shift from pistons to electrons from every angle, taking you inside the boardrooms where executives battle over their EV strategies to take on Tesla and more recently emerging Chinese powerhouses such as BYD. He brings you to family-run car dealerships deciding if they'll sell EVs or sell their businesses. He follows entrepreneurs along lonely stretches of road that will soon need charging stations. He talks to powertrain engineers whose skills were once the beating heart of the automotive industry but who now find themselves being replaced by coders. This is an epic exploration that stretches from Detroit to Japan to Germany to China and from factories in Normal, Illinois and Haywood County, Tennessee to a burgeoning mining operation along the shores of California's briny lithium-rich Salton Sea. *Inevitable* is a deeply enjoyable and smart book that uses masterful storytelling to capture the expanse and dynamism of the transition to electric vehicles in profound detail, bringing to life its seismic effects on everything and everyone.

Sense & Irritability Emma Lee Jayne, 2023-12-04 When a down-on-her-luck chef accepts a job working for a reclusive grumpy tech genius, the last thing she needs is to fall in love with her enigmatic boss. This steamy grumpy sunshine romantic comedy brings the laughter, the heat, and all the feels from award-winning USA Today Bestselling author Emma Lee Jayne.

More Short Stories From Tech Quentin Drummond Anderson, 2025-07-29 *More Short Stories from Tech* by Quentin Drummond Anderson. In this eagerly anticipated sequel to the bestselling *Short Stories from Tech*, Quentin Drummond Anderson returns to his meticulously crafted world where technology and humanity collide in unpredictable ways. Readers who fell in love with the complex characters from the first collection will be delighted to discover their stories continue as familiar faces navigate new digital frontiers that have outpaced our ethical frameworks. The influencer from *The Influencer's Shadow* returns in *The*

Influencer's Resurrection where her transformation from manufactured social media star to whistleblower takes a deadly turn when her investigation uncovers international criminal operations hiding behind luxury brands The con artists whose paths crossed in When Greek Meets Greek resurface in Digital Mirrors now joining forces on a sophisticated deepfake scheme with consequences beyond their control Drawing from his experience running an AI consultancy Anderson weaves ten interconnected tales that feel unnervingly prescient These aren't cautionary stories about some distant dystopia they unfold in our complicated present where deepfakes blur reality AI makes increasingly autonomous decisions and digital interactions reveal more about us than we intend From The Resurrection Game where an AI system's growing autonomy challenges a fraud investigator's understanding of power to Shadow AI exploring how a careless use of ChatGPT with proprietary code triggers a cascade of ethical compromises each story builds upon the technological and ethical universe established in the first collection The Hollywood Loophole and The Zero Sum Game explore regulatory manipulation and climate accountability in ways that expand plotlines introduced in the original book The LOAF Deception The Security Protocol and The Network introduce new characters whose paths occasionally intersect with returning favourites creating a rich tapestry of interconnected narratives that rewards readers familiar with the first collection while welcoming newcomers The final story Digital Dynasties revisits the characters from Marriage of Convenience as two scammers from rival crime families discover their marriage of mutual deception might form the perfect foundation for a new kind of criminal enterprise in the digital age What distinguishes Anderson's work is his refusal to offer easy moral judgments His characters like us apply timeless values to unprecedented situations often without clear roadmaps The collection doesn't just entertain it expands the thought provoking universe introduced in Short Stories from Tech deepening our understanding of how technology reshapes relationships and power dynamics Perfect for readers who enjoyed the first collection and anyone who appreciates thoughtful fiction about contemporary dilemmas where digital tools amplify age old human drives ambition deception self preservation and the search for authentic connection in an increasingly mediated world

Blue Skies T. C. Boyle, 2023-05-16 Boyle's satire has lost none of its edge over the course of a nearly half century literary career Blue Skies is an expert blend of suspense terror and occasionally very black humor this fiercely honest writer shows us what he sees and invites his readers to draw their own conclusions Wendy Smith Washington Post From best selling novelist T C Boyle a satirical yet ultimately moving send up of contemporary American life in the glare of climate change Boyle has long been one of the most exciting and intelligent storytellers in the United States Ron Charles Washington Post Denied a dog a baby and even a faithful fianc Cat suddenly craves a snake a glistening writhing creature that can be worn like jewelry living jewelry to match her black jeans But when the budding social media star promptly loses the young Burmie she buys from a local pet store she inadvertently sets in motion a chain of increasingly dire and outrageous events that comes to threaten her very survival Brilliantly imaginative in a terrifying way Annie Proulx Blue Skies follows in the tradition of T C Boyle's finest novels

combining high octane plotting with mordant wit and shrewd social commentary Here Boyle one of the most inventive voices in contemporary fiction transports us to water logged and heat ravaged coastal America where Cat and her hapless nature loving family including her eco warrior parents Ottilie and Frank her brother Cooper an entomologist and her frat boy turned husband Todd are struggling to adapt to the new normal in which once in a lifetime natural disasters happen once a week and drinking seems to be the only way to cope But there s more than meets the eye to this compulsive family drama Lurking beneath the banal facade of twenty first century Californians and Floridians attempting to preserve normalcy in the face of violent weather perturbations is a caricature of materialist American society that doubles as a prophetic warning about our planet s future From pet bees and cricket dependent diets to massive species die off and pummeling hurricanes Blue Skies deftly explores the often volatile relationships between humans and their habitats in which the only truism seems to be that things always get worse An eco thriller with teeth Boyle s Blue Skies is at once a tragicomic satire and a prescient novel that captures the absurdity and inexpressible sadness at the heart of everything
