Black British Postcolonial Feminist Ways of Seeing Human Rights Pamela Odih, 2024-12-29 This book traces the feminine soul of Afrobeat from tumultuous colonial her stories through to the vibrant heterotopias of the urban spaces and times of Black British youths of African racial heritage. Communicative action is a human right as per the portents of the United Nations in its 1948 declaration which recognises the human right to communication. Borne from the cultural political struggles against persistent coloniality in post-independence Nigeria, Afrobeat is communicative action. Afrobeat is the music of Nigerian dissent that has become the music of an African diaspora. Unique in its way of seeing intergenerational decolonial diaspora studies through the refracted prism of Nigerian Afrobeat, this book's extensive empirical and theoretical basis is directed toward the question: How to be Black British born in a country that colonised our maternal ancestors. It will be of interest to scholars and students in gender studies, African studies, decolonial studies, sociology and media studies. Twiterville Shel Israel, 2009-09-03 Twitter is the most rapidly adopted communication tool in history, going from zero to ten million users in just over two years. On Twitter, word can spread faster than wildfire. Companies no longer have the option of ignoring the conversation. Unlike other hot social media spaces, Twiterville is dominated by professionals, not students. And despite its size, it still feels like a small town. Twitter allows people

to interact much the way they do face to face honestly and authentically One minute you're complaining about the weather with local friends the next you're talking shop with a colleague based halfway across the globe No matter where you're from or what you do for a living you will find conversations on Twitter that are valuable Despite the millions of people joining the site you'll quickly find the ones who can make a difference to you Social media writer Shel Israel shares revealing stories of Twiterville residents from CEOs to the student who became the first to report the devastation of the Szechuan earthquake from visionaries trying to raise money for a cause to citizen journalists who outshine traditional media companies Israel introduces you to trailblazers such as Frank Eliason who used Twitter to reverse Comcast's blemished customer service reputation Bill Fergus who was on the team at Henry Ford Medical Center during the first live tweeted surgery Scott Monty social media officer for Ford who held off a mob of misinformed Ranger fans and averted a PR crisis Connie Reece who used Twitter to raise tens of thousands of dollars for cancer patients in need The Coffee Groundz a Houston area coffee shop that uses Twitter to pack the tables and fight off Starbucks Twiterville features many true stories as dramatic as these But it also recounts those of ordinary businesspeople who use Twitter to get closer to their customers And it explains how global neighborhoods will make geography increasingly irrelevant It even explains why people sometimes really do care what you had for lunch
