The Red Chip Review ,1997-11 **The Publishers Weekly** ,2002 **The New Goliaths** James Bessen,2022-01-01 An approach to

reinvigorating economic competition that doesn t break up corporate giants but compels them to share their technology data and knowledge Bessen is a master of unpacking the nuances of a complex array of interrelated trends to build a coherent story of how the promise of the democratized Internet ended up under the control of just a few Read The New Goliaths to see how the forest came to have only room for a few tall trees with the rest of us in the undergrowth Joshua Gans coauthor of Prediction Machines The Simple Economics of Artificial Intelligence Historically competition has powered progress under capitalism Companies with productive new products rise to the top but sooner or later competitors come along with better innovations and disrupt the threat of monopoly Dominant firms like Walmart Amazon and Google argue that this process of

creative destruction prevents them from becoming too powerful or entrenched. But the threat of competition has sharply decreased over the past twenty years and today's corporate giants have come to power by using proprietary information technologies to create a tilted playing field. This development has increased economic inequality and social division, slowed innovation, and allowed dominant firms to evade government regulation. In the face of increasing calls to break up the largest companies, James Bessen argues that a better way to restore competitive balance and dynamism is to encourage or compel these companies to share technology data and knowledge. **The Hollywood Reporter**, 2007 *Divining Desire* Liza Featherstone, 2018-02-15

Over the course of the last century, the focus group has become an increasingly vital part of the way companies and politicians sell their products and policies. Few areas of life, from salad dressing to health care legislation to our favorite TV shows, have been left untouched by the questions put to controlled groups about what they do and don't like. *Divining Desire* is the first ever popular survey of this rich topic. In a lively sweeping history, Liza Featherstone traces the surprising roots of the focus group in early twentieth century European socialism, its subsequent use by the Mad Men of Madison Avenue, and its widespread deployment today. She also explores such famous failures of the method as the doomed launch of the Ford Edsel with its vagina-shaped radiator grille and the even more ill-fated attempt to introduce a new flavor of Coca-Cola which prompted street protests from devotees of the old formula. As elites have become increasingly detached from the general public, they rely ever more on focus groups whether to win votes or to sell products. And in a society where many feel increasingly powerless, the focus group has at least offered the illusion that ordinary people will be listened to and that their opinions count. Yet it seems the more we are consulted, the less power we have. That paradox is particularly stark today, when everyone can post an opinion on social media, our 24-hour focus group yet only plutocrats can shape policy. In telling this fascinating story, Featherstone raises profound questions about democracy, desire, and the innermost workings of consumer society.

Message Received: 7 Steps to Break Down Communication Barriers at Work Mary E. Donohue, 2020-09-29

The action plan you need to ensure everyone's understood digitally and across generations. According to social scientist and award-winning CEO Dr. Mary Donohue, we communicate ineffectively at work a staggering 80% of the time. From the tone of an email to the almost but not quite eye contact of a video conference app, today's tech has increased the speed and scope of our communications as well as the opportunities to misunderstand each other completely. This lack of effective communication is a leading cause of workplace stress. In this widely anticipated and deeply researched book, Dr. Donohue, a victim of workplace stress herself, lays out a seven-step solution to give you the tools you need to make communication a cure for workplace stress, not a cause even especially when you're working with a generationally diverse team. Discover what's at the root of the problem from misunderstood emails and misinterpreted texts to misconstrued social media posts and missed social cues on Zoom, and learn how to respond to different communication preferences now. Through helpful charts, case studies, evidence-backed research, and more, you'll walk away with the tools you need to ensure everyone

on your team yourself included is heard and understood so there's less time clarifying and more time for everyone to be their best most productive selves Adweek, 2010 BNA's Banking Report, 2001 The Virginia Quarterly Review, 2022
