Description: Management The New Competitive Landscape by Bateman and Snell has consistently discussed and explained the traditional functional approach to management through planning, organizing, leading, and controlling. But the 6th edition goes a step further in defining and highlighting with icons four bottom line practices that managers and companies must deliver to their customers: Innovation, Speed, Quality, and Cost. Bateman and Snell's Management The New Competitive Landscape 6th edition has always been about a series of firsts: first to have a chapter on diversity, first to devote a section to the environment, and first to relate a bricks and clicks theme to explain the challenges of managing in a New Economy. This new edition is no exception with the expansion of such timely topics as ethics and technology.
