objectives real world examples and applications of AI and in depth discussions of technical aspects of AI support comprehension critical thinking and classroom discussion Digital support via McGraw Hill's Connect platform offering data driven simulations videos case studies and a wide bank of test questions for enhanced learning and engagement Dr Jonas Debrulle is an Associate Professor at ISEG School of Management in France and the Faculty of Economics and Business at KU Leuven in Belgium Previously he was Director of Programs at ISEG overseeing undergraduate and postgraduate programs He currently teaches international strategic management technology entrepreneurship and the impact of AI on business development Dr Loïc Pl is a Professor of Strategic Management and Director of Teaching and Learning at IESEG School of Management He has a Ph.D. in Management Sciences from University Paris Dauphine PSL He created ISEG Center for Educational and Technological Innovation CETI in 2009 promoting the use of technology to benefit teaching and learning Dr Elliroma Gardiner is an Organisational Psychologist and Associate Professor at QUT Business School in Australia With over 18 years of experience teaching and researching across Australia Asia and Europe she has held academic positions at the London School of Economics ISEG School of Management and Griffith University Building Portals, Intranets, and Corporate Web Sites Using Microsoft Servers James J. Townsend, Dmitri Riz, Deon Schaffer, 2004 Corporate Web portals are increasingly common providing employees and customers with one easy to use online access point br Provides a high level yet practical overview of the concepts technologies and products used in building successful portals Marketing Above the Noise Linda J. Popky, 2016-11-03 Marketing today is out of control With all the new marketing techniques accessible to the masses it's becoming harder and harder to stand out from the crowd The result is more and more messages hitting us more often in new and more intrusive ways For customers it's a lot of noise Through her work with a wide range of organizations from small companies to professional service providers to Fortune 500 companies Linda Popky has developed Dynamic Market Leverage TM an approach to help cut through the clutter stand out and effectively build business Marketing Above the Noise takes a contrarian approach by not focusing on social media digital marketing or other new tactics and instead helping organizations understand The critical upfront work needed to really understand customers markets and unmet needs The value of consistent focused messaging Why empowering employees to effectively represent the brand is so critical How to thrive in an age of user generated content and customer driven marketing Why it's key not to confuse selling with installing The book introduces the Dynamic Market Leverage Model which measures marketing clout by looking at eight core marketing disciplines and five additional Leverage Factors that can help an organization focus on key aspects of their marketing function that will provide the most significant return on their marketing investment Today's businesses need to stop trying to keep pace with the latest and greatest marketing tactics and instead focus on developing those long term strategies that build customer loyalty and convince prospects to buy Yes businesses need to be aware of and integrate new media and new approaches but they need to do it in a way that makes sense for the business They need to maintain a clear

focus above the din of the roaring crowd above the marketing fray. Most organizations don't have the luxury of being able to start from a clean slate to develop new marketing strategies. They have existing customers, existing channels and relationships, existing ways of doing business. With limited resources, they're not able to integrate every new tactic as it appears and they're not sure how to prioritize all of these options. What's needed is a timeless framework, a way of looking at marketing as tied to both business growth and the building and nurturing of ongoing customer engagement. It's time to move the focus from social media and evangelists, sales and marketing alignment and the latest hot cloud-based marketing tools to what really counts: convincing customers to trust you with their business not just once but time and time again.

Chain Store Age, 2009 *From Networks to Netflix* Derek Johnson, 2018-01-03

Even as the television industry experiences significant transformation and disruption in the face of streaming and online delivery, the television channel itself persists. If anything, the television channel landscape has become more complex to navigate as viewers can now choose between broadcast, cable, streaming and premium services across a host of different platforms and devices. *From Networks to Netflix* provides an authoritative answer to that navigational need, helping students, instructors and scholars understand these industrial changes through the lens of the channel. Through examination of emerging services like Hulu and Amazon Prime Video, investigation of YouTube channels and cable outlets like Freeform and Comedy Central, and critiques of broadcast giants like ABC and PBS, this book offers a concrete, tangible means of exploring the foundations of a changing industry.
