Coding Robotics and Engineering for Young Students builds foundational computer science and robotics skills and knowledge in bright Pre K grade 2 students Originally developed as enrichment courses for Northwestern University s Center for Talent Development this curriculum emphasizes active hands on and collaborative learning

Students are challenged to learn computer science content such as coding and robotics and engineering concepts as well as practice high level academic skills such as creative problem solving computational thinking and critical thinking

Instructional practices balance screen time with active collaborative classroom engagement Learning is deepened when students are challenged to navigate the transition from a virtual learning environment to a tangible learning environment

The lessons can be implemented as standalone enrichment experiences or as part of a coordinated scope and sequence that leads to higher level computer science and engineering studies

Grades Pre K 2 **Teaching Coding through Game Creation** Sarah Kepple,2018-08-24

This engaging guide demonstrates how easy fun and rewarding it can be to teach and learn coding at the library In our technology obsessed society computer coding is a highly valued and in demand skill but many people consider it an activity only for technology geeks and educated professionals even more so to teach coding

Not so says author Sarah Kepple In this accessible guide she explains why you don t have to be an expert to lead coding shows how easy and rewarding learning and

teaching coding can be and provides step by step instructions to help you and your community get started The book shows how to engage students quickly with learning activities that springboard off of the powerful appeal of video games The author takes users through activities that introduce popular programming languages including GameMaker JavaScript Python and Scratch to create video games and in the process to learn coding These activities themed around classic and popular stories appeal to a broad age range from elementary age youth through high school and beyond to adults and seniors Readers will see why school and public libraries are venues ideally suited for coding classes workshops clubs or camps and they will understand why teaching coding not only meets an important need but also serves to highlight the library s relevance to its community     Gaming in Academic Libraries Amy Harris,Scott E.
