Have you told your supervisor about this injury?

Yes

Where did the injury happen?

Assembly area in the production floor

What were you doing at the time?

I was operating a machine used for assembling components.

Describe in detail what led up to the injury.

Prior to the injury, I was working on a high-speed assembly line, specifically tasked with inserting small screws into a product. The line was operating at a rapid pace, requiring me to perform repetitive motions to keep up with the production demand. As I was working, my hand slipped, and I accidentally hit my thumb against the sharp edge of the machine's metal casing.

What could have been done to prevent this injury?

To prevent this injury, additional safety measures could have been implemented. In particular, it would be helpful to have protective gloves with enhanced grip and regular breaks to prevent fatigue-induced errors. Moreover, a safety guard or covering for the sharp edges of the machine's casing would have mitigated the risk of accidental injuries.

What parts of your body were injured?

I injured my right thumb.
