Rethinking Reference and Instruction with Tablets Rebecca K. Miller, Carolyn Meier, Heather Moorfield-Lang, 2012
Tablet computer ownership on university campuses has tripled in the past year according to a Pearson Foundation survey in March 2012. At the threshold of the Post PC era as students' expectations change, reference and instruction librarians are responding with new services. In this issue of *Library Technology Reports*, Virginia Tech librarians Miller, Meier, and Moorfield-Lang offer a collection of first-hand accounts of academic library projects using tablets. Among the projects detailed: Subject matter librarians roving campus to increase access and usage of online resources; Librarians partnering with faculty of eight academic departments to use tablets in instruction; Industrial design students using library tablets in competitions and design lab work; Workshops that put mobile learning into information literacy instruction; Tablets as a curriculum component in a first-year undergraduate learning community; Cross-departmental library collaboration in planning new services. *The Computer Supported Collaborative Learning (CSCL) Conference 2013, Volume 1* ISLS, 2014-04-23. [The Computer Supported Collaborative Learning CSCL Conference 2013 proceedings Volume 1](#) [Mobile Devices in Education: Breakthroughs in Research and Practice](#) Management Association, Information Resources, 2020-01-03. As technology advances, mobile devices have become more affordable and useful to countries around the world. The use of technology can significantly enhance educational environments for students. It is imperative to study new software, hardware, and gadgets for the improvement of teaching and learning practices. *Mobile Devices in Education: Breakthroughs in Research and Practice* is a collection of innovative research on the methods and applications of mobile technologies in learning and explores best practices of mobile learning in educational settings. Highlighting a range of topics such as educational technologies, curriculum development, and game-based learning, this publication is an ideal reference source for teachers, principals, curriculum developers, educational software developers, instructional designers, administrators, researchers, professionals, upper-level students, academicians, and practitioners actively involved in the education field.

Role Of Creativity In The Management Of Innovation, The: State Of The Art And Future Research Outlook Alexander Brem, Rogelio Puente-diaz, Marine Agogue, 2017-03-27. The effective management of innovation is integral to the development of any business. This book provides a collection of articles dealing with creativity in the context of innovation management from an interdisciplinary perspective of business, psychology, and engineering. It takes papers from a Special Issue in the *International Journal of Innovation and Management* published by World Scientific in 2016 and combines them with original articles written by some of the top academic minds in business and management. It covers topics such as creativity in innovation from a leadership perspective, creativity reduction in avoidance and approach-oriented persons, creativity techniques and innovation, and the interplay between cognitive and organisational processes. *The Role of Creativity in the Management of Innovation* gives MBA graduate and undergraduate students, professors, and business managers a comprehensive overview of current thinking in the field of business. **Envisioning the**

Future of Online Learning Johan Eddy Luaran, Janudin Sardi, Anealka Aziz, Nor Aziah Alias, 2016-06-10 This book shares insights into the various ways technology can be used for educational purposes utilizing an approach suitable for both novice and advanced practitioners in this niche area. It features selected papers presented at the International Conference on e Learning 2015 ICeL 2015 where professionals discussed how technology can not only serve as a tool in the classroom but as the classroom itself. As the title *Envisioning the Future of Online Learning* suggests, this book showcases current best practices in the field of e learning where technology has been leveraged to re engineer the landscape of education particularly in the context of Malaysia.
