Stem Kits Chatgpt Today:

From AI Literacy to Generative AI Literacy Davy Tsz Kit Ng, Samuel Kai Wah Chu, Xianghan O'Dea, Jac Ka Lok Leung, 2026-01-01 This book presents a scoping review and critical discussion of generative artificial intelligence AI literacy within the context of education. The first section explores how generative AI technologies such as text generation, image synthesis, and video content creation impact teaching and learning processes, student engagement, creativity, and critical thinking. The second section addresses the implications and challenges of integrating generative AI into the everyday lives of both young and adult learners, with a focus on ethical considerations, privacy concerns, and potential biases. The third section offers recommendations for policymakers, researchers, and practitioners, along with questionnaires designed to assess generative AI literacy. Through the use of scoping review methodology, the book provides readers with a comprehensive understanding of the current landscape of generative AI literacy in education, as well as the broader impacts and applications of generative AI technologies in educational settings.

Road to a More Intelligent World Pengfei Sun, 2025-05-31 This book provides an in-depth look at the current development of the fifth generation mobile communication technology 5G and artificial intelligence AI, their technological advantages, application, and critical role in science and technology, as well as their future development trends. This book is divided into three parts. The first part details the current development of 5G around the globe and the evolution from 5G to 5.5G. The second part explores the significant developments in AI technologies, including typical AI technologies such as machine learning ML, natural language processing NLP, and computer vision CV, and the popular foundation model technologies. The third part looks at the impacts of 5G AI on the digitalization and intelligent development of industries and showcases some of the applications in government, meteorology, education, and healthcare, etc. This book can serve as a reference for a diverse range of readers, such as people in the public sector and the mobile communications industry, and faculty and students in this field.

Transformative Approaches to STEAM Integration in Modern Education Behera, Santosh Kumar, Sorayyaei Azar, Ali, Curle, Samantha, Dials, Jeanette Gao, 2025-01-22 STEAM represents an approach that nurtures the curiosity, communication, and critical thinking of both students and researchers. By integrating science, technology, engineering, arts, and mathematics into a unified discipline, STEAM provides opportunities for thinking innovatively, engaging in hands-on learning, and fostering collaborative teamwork. Despite its potential benefits, the integration of STEAM into educational curricula presents various challenges, including resistance from traditional educational systems, resource constraints, and the need for teacher professional development. Ensuring equitable access to STEAM education and addressing gender and diversity issues remain critical concerns. Further research may help educators address these concerns and integrate STEAM effectively into their educational practices. Transformative Approaches to STEAM Integration in Modern Education explores the multifaceted dimensions of STEAM education and research, emphasizing its transformative potential, challenges, and implications for fostering innovation and holistic development in learners. Through a

comprehensive analysis of theoretical frameworks practical applications and real world case studies the book aims to provide insights into the conceptualization implementation and assessment of STEAM approaches across various educational levels This book covers topics such as educational literacy skill development and digital technology and is a useful resource for educators academicians administrators and researchers

A Criminology of the Human Species Yarin Eski,2023-07-10 The book sketches out how the criminological lens could be used in the climate change debate around possible human extinction It explores the extent to which the human species can be considered deviant in relation to other species of the contemporary biosphere as humans seem to be the only species on Earth that does not live in natural balance with their environment anymore It discusses several unsettling topics in the public debate on climate change specifically the taboo of how humans may not survive the ongoing climate change It includes chapters on the Earth's history of mass extinctions the global state of denial including toward the possibility that the human species could go extinct and it considers humans future as a deviant fatal species outside of Earth in outer space possibly on other planets It puts forward and enriches the critical criminological tradition by conceptualizing and setting an unsettling tone within criminology and criminological research on the human species and our extinction by daring criminologists and victimologists to ponder and seek empirical answers to controversial imaginations and questions about our possible extinction
