The ... Mental Measurements Yearbook Oscar Krisen Buros,1985 Customers who place a standing order for the Tests in Print series or the Mental Measurements Yearbook series will receive a 10% discount on every volume To place your standing order please call 1 800 848 6224 in the U S or 919 966 7449 outside the U S The most widely acclaimed reference series in education and psychology the Mental Measurements Yearbooks are designed to assist professionals in selecting and using standardized tests The series initiated in 1938 provides factual information critical reviews and comprehensive bibliographic references on the construction use and validity of all tests published in English The objectives of the Mental

Measurements Yearbooks have remained essentially the same since the publication of the series. These objectives include provision to test users of factual information on all known tests published as separates in the English speaking countries of the world; candidly critical test reviews written for the MMY series by qualified professional people representing a variety of viewpoints; unique publication of each volume in the MMY series with new volumes supplementing rather than supplanting previous series volumes. Each yearbook is a unique publication supplementing rather than supplanting the previous volumes. The ninth edition of this widely acclaimed reference work is the most comprehensive yearbook to date. It includes 1 409 commercially published tests, 19% more than in The Eighth Mental Measurements Yearbook; detailed descriptive information about each test; 1 266 original reviews, 41% more than in The Eighth Mental Measurements Yearbook; prepared by 660 well qualified professional reviewers and extensive references on specific tests including those selected by Buros Institute staff and those selected by reviewers. The tests are listed in alphabetical order for easy reference. The volume also features a state of the art essay on Mental Measurement: Some Emerging Trends by Dr Anne Anastasi, a leading figure in the field of measurement. Indexes to the volume are an Index of Titles with cross references and identification of new and revised tests; an Index of Acronyms; a Classified Subject Index; a Publisher's Directory and Index which includes publisher names and addresses and test listings by publisher; and an Index of Names and an innovative Score Index which refers readers to tests featuring particular kinds of scores that are of interest to them. Widely regarded as the bible of testing, the Mental Measurements Yearbook is an indispensable reference work. The Ninth Mental Measurements Yearbook continues and extends this proud tradition of excellence in providing service to test users.

The Child Clinician's Report-writing Handbook Ellen Braaten, 2007-02-08. What an incredible resource Braaten has written, what is clearly the most comprehensive child assessment handbook available. This indispensable book carefully walks the clinician through the entire assessment process and covers all conceivable areas of inquiry. This is an essential guide for the beginning practitioner and one that is sure to become a mainstay on every child clinician's bookshelf.

Research in Law Enforcement Selection Michael G. Aamodt, 2004. This book is the most comprehensive reference ever written for individuals interested in law enforcement selection. The chapters contain meta analyses, statistical reviews of the literature investigating the validity of methods used to predict police performance. These methods include education requirements, cognitive ability, background variables (e.g. military experience, arrest record, discipline problems at work, personality inventories, interest inventories, physical agility tests, assessment centers and interviews). The first chapter in the book is a short primer on meta analysis that informs the reader about the purpose of meta analysis and how to interpret the meta

analysis tables contained in the book Chapter 2 describes the methods used to conduct the meta analyses for this project Chapters 3 11 list the meta analysis results for the various predictors of police performance Chapter 12 describes a meta analysis of the relationships among criteria e g performance ratings discipline problems commendations Chapter 13 describes a meta analysis of the relationships among selection methods and Chapter 14 describes a meta analysis of the relationship between the various criteria and sex race age and tenure Chapter 15 summarizes the previous chapters and identifies future research needs
