

How NERC Develops Reliability Standards

NERC appoints a reliability standard drafting team (SDT).

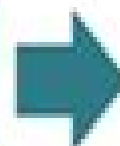

A Reliability Standard draft is made by the SDT.

The SDT uses engineering, technical criteria, and lessons learned from past operating incidents.

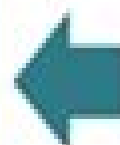

The public may participate during the open comment periods.

The SDT submits the draft to NERC's Standards Committee with a request to proceed to stakeholder voting.

FERC will create a Docket for the proposed reliability standard and the public may participate by submitting comments during the open comment period.

Once approved by both stakeholders and the NERC Board of Trustees, NERC submits the proposed draft to FERC for approval.
