experience Admiral William McRaven author of *Make Your Bed* What if you could learn how to expect the unexpected In business like in life foresight is crucial for avoiding pitfalls and disaster and yet it's something we spend nearly no time developing Retired four star general Stan McChrystal has lived a life associated with the deadly risks of combat he has been forced to analyse and prepare for situations he didn't even know were possible As a business consultant he has seen how hundreds of individuals and organizations too often and to great cost fail to mitigate risk Why Because they focus on the probability of something happening instead of the interface through which any and all risks can be managed In *Risk A User's Guide* McChrystal presents a new system of responding to risk He lays out ten dimensions of control which we can adjust at any given time no matter the context narrative bias action timing adaptability communication technology diversity structure and leadership Drawing on compelling examples ranging from military history to the business world and offering infinitely practical exercises to improve preparedness McChrystal illustrates how these ten factors are almost always in effect and how by considering them constantly individuals and organizations can exert mastery over every conceivable sort of risk that they might face We may not be able to see into the future but Risk gives us a framework for improving our resistance and building a strong defense against what we know and what we don't A brilliant user's guide that demonstrates how managing risk is about how we lead rather than getting mathematical equations right Annie Duke bestselling author of *Thinking In Bets* and *How To Decide* Measured meticulous and filled with practical pragmatic wisdom from both war and peace McChrystal's clear eyed unsentimental guidance cuts to the heart of our precarious existence A must read leadership bible James Kerr bestselling author of *Legacy* An essential playbook on mastering all dimensions of risk For soldiers educators CEOs entrepreneurs government leaders and everyone in between Keith Krach former Undersecretary of State and CEO of DocuSign [Cascades: How to Create a Movement that Drives Transformational Change](#) Greg Satell, 2019-04-26 What does it take to change the world This book will show you how to harness the power of CASCADES to create a revolutionary movement If you could make a change any change you wanted what would it be Would it be something in your organization or your industry Maybe something it's in your community or throughout society as a whole Creating true change is never easy Most startups don't survive Most community groups never get beyond small local actions Even when a spark catches fire and protesters swarm the streets it often seems to fizzle out almost as fast as it started The status quo is almost by definition well entrenched and never gives up without a fight In this groundbreaking book one of today's top innovation experts delivers a guide for driving transformational change To truly change the world or even just your little corner of it you don't need a charismatic leader or a catchy slogan What you need is a cascade small groups that are loosely connected but united by a common purpose As individual entities these groups may seem inconsequential but when they synchronize their collective behavior as networks they become immensely powerful Through the power of cascades a company can be made anew an industry disrupted or even an entire society reshaped As Satell takes us through past and present movements he
