UK Horse Racing Betting Systems Mark Horrocks,2020-02-07 I graduated from University with a computer science degree many years ago when a degree meant something I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle I started my own computer business in my early 20 s where I made good money and travelled across Europe It was at this point in my life I decided to start a horse tipping business where I had weekly full page colour adverts in the Racing Post at 2K per advert and offices I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business In my late 30 s around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed horse racing form It was over a period of 2 years that I concentrated my efforts on UK handicap races in conjunction with the betting exchange Betfair This is where I believed maximum profit could be gained The computer model allowed me to process 100 s of handicap races per day and then formulate my system tweeking a horse s weight and BHB or OR Official Rating I must confess this was a difficult puzzle to crack even with a computer program that I wrote to crunch the data I eventually found the correct weight and BHB rating for a horse based on it s last performances in handicap races This eBook outlines this system and can be manually applied easily using the Racing Post on the internet Punter s can be fickle people which 95% of them have no understanding of horse form and probability If you can back horses at higher prices then you will make money I regularly back horses that have a starting price of 2 1 and get 10 1 Most punters want winners everyday regardless of the price and the horse s real chance of winning that race this is where the bookmakers clean up Please take your time and practise these systems and more importantly understand in play betting odds on Betfair exchanges You do not need to the use betting exchange you can back using normal bookmakers Please enjoy

Finding an Edge Ron Loftus,2012-04-01 [Horse Racing System Seeing The Light](#) M. Horrocks,2020-12-12 I have written many books about UK horse racing betting systems e g horse laying in 6f 7f races horse dutching to 35% book large betfair place market decimal odds betting systems and many more I have been able to do this as I have modelled these horse racing betting systems on my own database using my own computer code I am fortunate I have I T background and have computer science degree which has helped me a great deal in my quest for the perfect horse racing systems This book is different as I feel that this horse racing betting system helps punters see the light when selecting horses for a bet The system is so simple to follow that punters who have busy lives can apply this system very quickly and accurately The system uses the free racing post on the internet so there are no further costs The book is priced to refelect seeing the light many punters are in the dark **UK**

Longshot Horse Racing System M C Horrocks, 2021-05-06 I will make this bold statement straight away This book finds big priced winners in UK handicap horse races easily and consistently I need to make a very important statement here backing double figure priced horses can return some huge profits but you must remember they all do not win more will lose races which is to be expected There is a reason why the horse is such a big price it is mainly due to the fact the horse has not won for a long time Another reason is that a horse could be out of its depth in other words running in a higher class of race Most punters want winners every day at any odds this makes them feel good They think they are making a profit how wrong they are and the bookmakers take their money every day with a smile on their faces Another mistake the average punter makes is that they will take current SP starting price of a horse and not look for a larger price So say a horse is 2 1 that is decimal odds 3 0 on the Betfair betting exchange They will readily take these odds A more profitable approach is to take higher odds like decimal odds 3 5 Ok you might think there is not much difference between decimal odds 3 0 and 3 5 but it adds up over a year and that is where your profit is The only way to profit in horse racing is to back horses at larger odds than what is being offered The betting exchanges show the true odds of a horse just before the race starts As these odds are derived from many punters and bookmakers who are using the betting exchanges then the price of the horse before the race starts is its true odds This price is a consolidated view and it is normally correct and near the mark This system also finds large priced horses that are placed 1st 2nd 3rd or 4th regularly in a horse race and these can be exploited in the Betfair place market at some juicy odds I have taken decimal odds of 7 0 on four places in a horse race and mopped up
