Directory of Corporate Counsel, 2025 Edition In house, **The Platform Economy and the Smart City** Austin Zwick, Zachary Spicer, 2021-09-22 Over the past decade, cities have come into closer contact and conflict with new technologies. From reactive policymaking in response to platform economy firms to proactive policymaking in an effort to develop into smart cities, urban governance is transforming at an unprecedented speed and scale. Innovative technologies promise a brave new world of convenience and cost effectiveness powered by cameras that monitor our movements, sensors that line our streets, and algorithms that determine our resource allocation, but at what cost? Exploring the relationship between technology and cities, this book brings together an outstanding group of authors in the field to provide a critical and necessary examination of the disruption that is under way. They look at how cities should understand and regulate novel technologies, what can be learned from proposed and failed smart city projects, and how innovative economies change the structure of cities themselves.
