SELLERSWITHOUTSSN ITIN EIN VAT ID CPN 2SSN KIM TERJE RUDSCHINAT GRONLI, *Locating Migrating Media* Greg Elmer, Charles H. Davis, Janine Marchessault, John McCullough, 2012-07-10 Locating Migrating Media details the extent to which media productions both televisual and cinematic have sought out new and cheaper shot locations creative staff and financing around the world. The book contributes to debates about media globalization focusing on the local impact of new sites of media production. The book's chapters also question the role that film and television industries and local and regional governments play in broader economic development and tax incentive schemes. While metaphors of transportation mobility, fluidity and change continue to serve as key concepts and frames for understanding contemporary media industries products and processes, the essays in this book look to local spaces, neighborhoods, cultural workers and stories to ground the global. That is to interrogate the effect of media globalization before, during and after film and television shooting and onsite production. By locating migrating media, these chapters seek to determine the political, economic and cultural conditions that produce contemporary forms of televisual and cinematic storytelling and how these processes affect the inhabitants, the look and the very geopolitical future of local communities, neighborhoods, cities and regions. The focus on relocated screen production highlights the act of film and television making both aesthetically and economically. To locate migrating media is therefore to determine the political and cultural economies of globalized sets and stages, be they in new studios or on city streets or perhaps most importantly in our imaginations. **The Savage Within** Henrika Kuklick, 1991 This study examines law enforcement within the context of Sung society. Professor McKnight shows that the group of criminals who were the core of the habitual criminal group in Sung China were young, unattached males with few life skills. What became of the criminal after capture and conviction is also an important aspect of this study, which addresses basic questions in Chinese punishment. This work is the first comprehensive study of law enforcement in traditional China. The depth and rigor to which the subject is treated would make it most appropriate for scholars in legal history and East Asian studies. Publisher's description:
